₹1 LAKH CRORE TO CREATE WORLD'S LARGEST GRAIN STORAGE CAPACITY
The Cabinet has cleared the proposal aimed at reducing crop damages, preventing distress sales by farmers & strengthening India's food security

MOVE TO STRENGTHEN COOPERATIVE SECTOR

The government is planning to create 700 lakh tonne of grain storage capacity in the cooperative sector over the next five years, said Union minister Anurag Thakur. This will help strengthen the country's cooperative sector, as Primary Agricultural Credit Societies can diversify into the storage of food grains. The move is also expected to help create jobs in rural India, the minister added

2,000 TONNE GODOWN IN EACH BLOCK

- A godown of 2,000 tonne capacity will be established in each block
- Implementation of proposal will start within 45 days of Cabinet approval
- Thakur said the country's foodgrains production is around 3,100 lakh tonne, while the storage capacity is only 47% of the total output. He noted that in developed economies, the storage capacities are higher than output

2,150L tonnes
PROJECTED LEVEL OF INDIA'S TOTAL GRAIN STORAGE CAPACITY AFTER 5 YEARS

It's a challenge for govt to roll out 2 guarantees

Final decision at tomorrow's cabinet meet

DEVARAJ B HIREHALLI & ASHWINI M SRIPAD @ Bengaluru

THE Siddaramaiah government is facing the challenge of working out modalities and a mechanism to implement two of the five guarantees the Congress party promised to voters in the run-up to the May 10 Assembly elections.

A final decision on rolling out the guarantees is expected at a cabinet meeting on Friday. The meeting was supposed to be held on Thursday.

The main challenge is to implement 'Yuva Nidhi' (Rs 3,000 per month for unemployed graduates and Rs 1,500 per month for unemployed diploma holders for two years or until they get a job) and 'Griha Lakshmi' (Rs 2,000 per month for every woman in the run-up to the May 10 Assembly elections).

Some ministers and officials, who attended the meeting, admitted that the challenge is in identifying genuine beneficiaries.

However, the government is confident of rolling out 'Gruha Jyothi' (free power up to 200 units for every household), 'Anna Bhagya' (10 kg foodgrains per person in every BPL family) and 'Shakti' (free travel for women in government-run ordinary buses) guarantees.

Food and Civil Supplies Minister KH Muniyappa and Transport Minister Ramalinga Reddy said 'Anna Bhagya' and 'Shakti' guarantees could be implemented comfortably.

"The government has decided to implement all five guarantees and discussions will be held in this regard at the cabinet meeting on Friday," Siddaramaiah told reporters after holding a meeting with his cabinet colleagues and officials on Wednesday.

The Finance Department gave a presentation to ministers on the implementation of five guarantees. "The officials also briefed the ministers about the financial implications," Siddaramaiah said. The CM estimated that it is likely to cost Rs 50,000 crore annually.

PRİYANK GETS IT/BT, MB PATIL INFRA DEVPT

Bengaluru: Rural Development and Panchayat Raj Minister Priyank Kharge will once again be in-charge of IT and BT Department, with Chief Minister Siddaramaiah on Wednesday affecting a minor re-allocation of portfolios. Large and Medium Industries Minister MB Patil has been given additional charge of Infrastructure Development. **P6**

Rahul's God quip to attack Modi

PREETHA NAIR @ New Delhi

SENIOR Congress leader Rahul Gandhi on Wednesday took a swipe at Prime Minister Narendra Modi while addressing the diaspora at the US, drawing a sharp counterattack from the BJP.

Addressing a gathering in San Francisco, Rahul sarcastically said there are people in India who think they know more than God and Modi is 'one such specimen'. "We have a group of people in India who are absolutely convinced that they know everything. They think they

know even more than God. They could sit down with God and have a conversation and explain to him what is going on. And of course, our prime minister is one such specimen," he said.

"I think if you sat Modi ji down next to God, Modi ji would start explaining to God how the universe works and God would get confused about what have I created," Rahul quipped.

In his pushback, Union minister Anurag Thakur retorted that

We have a group of people who understand everything. They can speak to scientists and explain science to them... In life, you can't understand anything if you are not ready to listen

Thakur's insult of India during his foreign visits was unacceptable. "He wants to insult Modi but ends up insulting India, questioning India's progress. He is trying to defame India at a time the world is acknowledging our growing stature," said Thakur.

Rahul in his address also criticised the inauguration of the new Parliament building, saying, "These are distractions. The real issues are unemployment, price rise, spread of anger and hatred, crumbling education system, price of education, price of health care. BJP can't really discuss them so then they have to do the whole sceptre thing."

Shah visits 2 more Manipur districts

PRASANTA MAZUMDAR @ Guwahati

UNION home minister Amit Shah on Wednesday visited Moreh in Tengenoupal and Kangpokpi — two of the violence-hit districts in Manipur — and held discussions with various organisations to restore normalcy.

"Held a meeting with the delegations of Kuki and other communities at Moreh. They expressed strong support for the government's initiatives to restore normalcy," Shah later tweeted. This was his third day in Manipur.

At both Moreh and Kangpokpi, he was accompanied by home secretary A K Bhalla and Intelligence Bureau chief Tapan Kumar Deka.

Moreh has a mixed population of Tamil, Nepali, Bihari, Rajasthani, Bengali, Punjabi, besides Meitei and Kuki communities. Hundreds of people, holding the national flag, greeted Shah when he visited the two places.

Kuki organisations reiterated the demand for 'separate administration' and the immediate withdrawal of police commandos from Moreh. In a

Home minister Amit Shah meets Kukis at a relief camp in Kangpokpi | P11

memorandum, they further demanded that Meitei radical groups Arambai Tengol and Meitei Leepun be declared outlawed, citing their alleged involvement in the violence. The also sought a helicopter service from Moreh to Aizawl in Mizoram and Guwahati. A Kuki outfit claimed Shah positively responded to the demands on the withdrawal of police commandos and helicopter service. At both places, he appealed to people to maintain peace.

Meanwhile, a civilian was injured in an exchange of fire between security forces and suspected militants in Imphal East district. Another gunfight was reported from Sungeni in Kakching district on Tuesday night.

Strife pushes sport out of mind of top athletes

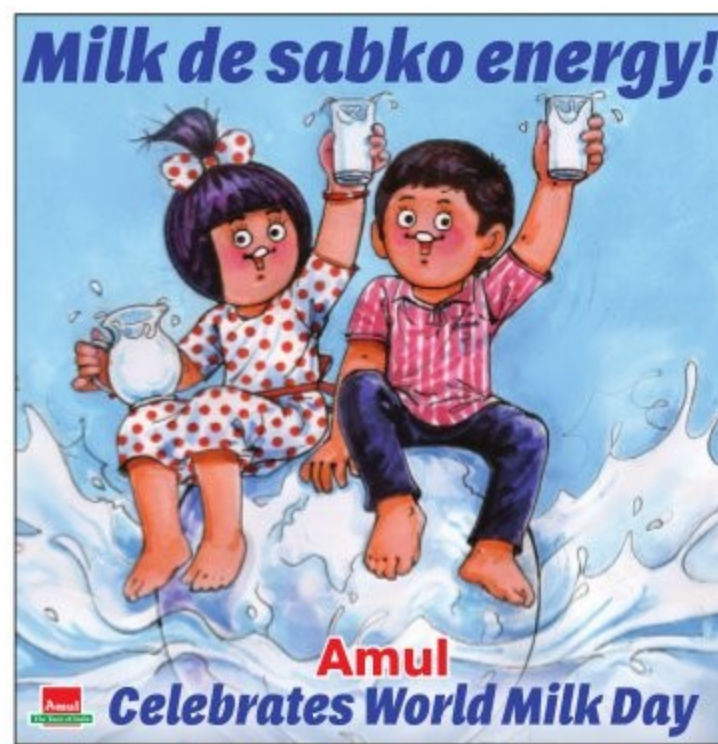

FIROZ MIRZA @ Chennai

IN August last year, Likmabam Shushila Devi became the first judoka from India to bag multiple medals (both silver) at the Commonwealth Games in Birmingham. A year before that, she was the lone judoka from the country at the Tokyo Olympics. With big events like 2024 Paris Olympics lined up for the next couple of years, the 28-year-old should ideally be training. However, she is shuttling between home and a relief camp sheltering around 400 displaced people in her village Heingang Mayai Leikai, Imphal East (Manipur).

Sport is not even on her mind right now. "How can we think of sports now? There are people here whose houses were burnt in front of them and their relatives killed. Hundreds of them have taken refuge in camps. It's been a month since the ordeal," Shushila told this daily.

The relief camp set up at a community hall of a sports club has pregnant women and newborns. "Around 100 people sleep in a hall with hardly one fan in the heat. The summer means acute water shortage too. Somehow we are managing by donating foodgrain and helping them cook. But how long will it continue as even we will run out of stock someday," said the judoka.

Another issue players are facing is lack of training. All the sports centres are shut. Bem Bem Devi, who went to meet Union home minister Amit Shah on Tuesday along with stars like Sarita Devi and Kunjarani Devi, said the situation is hurting athletes. "It is saddening because no sporting activity is going on. The Asian Games is coming up and preparation of every athlete here has been disrupted." **P19**

MUNDE RAP

Probe against sidelined WFI chief on: Police

UJWAL JALALI AND SUDHIR SURYAWANSHI @ New Delhi/Mumbai

THE Delhi Police on Wednesday said its probe against sidelined Wrestling Federation of India (WFI) chief Brij Bhushan Sharan Singh in a couple of sexual harassment cases is still in progress, refuting reports in a section of the media that sufficient evidence was not found to arrest him.

"The cases filed by women wrestlers are still under consideration. Status reports are being filed before the court regarding the investigation," a senior Delhi Police official said. Curiously, the police had from its official Twitter handle stated that the media's claims were wrong, but deleted that tweet after some time.

Singh is facing two cases of sexual harassment, one of them on a complaint by a minor, under the POCSO (Protection of Children from Sexual Offences) Act. But a man claiming to be the uncle of the minor victim sought to demolish her charges, alleging she was not a minor. He went on to accuse the agitating top wrestlers of using the minor to frame Singh.

The pushback came from Delhi Commission for Women's Chairperson Swati Maliwal, who said it was a criminal offence to reveal the identity of the minor victim.

Union Sports Minister Anurag Thakur urged protesting wrestlers not to take any step that could undermine sports or hurt players, adding proper action will be taken once the probe is over.

Meanwhile, Maharashtra BJP MP Pritam Munde, daughter of the late Gopinath Munde, became the first BJP lawmaker to express his displeasure at the denial of justice to the wrestlers. "The government should have quickly carried out an inquiry. Action should have been taken against the guilty. As a Lok Sabha MP and woman, I am very much concerned about it," Pritam Munde said.

Hindu women's plea for right to pray at Gyanvapi maintainable: HC

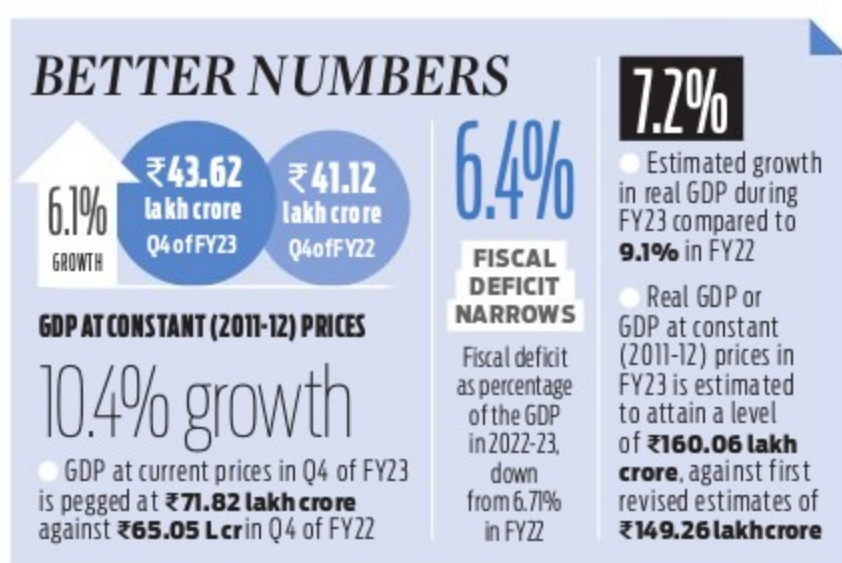

NAMITA BAIJPAI @ Lucknow

THE Allahabad High Court on Wednesday upheld the Varanasi district court's order that the suit filed by five Hindu women seeking permission for daily worship of Goddess Shringar Gauri in the Gyanvapi complex was maintainable.

The bench of Justice J J Munir had reserved its judgment after hearing both parties at length on December 24, 2022. The order came in a revision petition filed by Anjuman Intezamia Masjid (Gyanvapi mosque management committee) in October 2022 against the Varanasi district court's order of September 12, 2022.

District judge AK Vishwesha had dismissed the mosque committee's objection under Order 7 Rule 11 of CPC. The judge observed the suit of the Hindu women plaintiffs was not barred by the Places of Worship (Special Provision) Act, 1991, the Waqf Act, 1995 and UP Shri Kashi Vishwanath Temple Act-1983, as was being claimed by the mosque committee.

In their plea for right to worship Goddess Shringar Gauri in the Gyanvapi complex located next to Kashi Vishwanath temple, the women said the mosque was once a temple, which was demolished during Emperor Aurangzeb's rule.

GDP data beats forecasts, grows at 7.2% in FY23

MONIKA YADAV @ New Delhi

INDIA's economy threw up a surprise in the fourth quarter of FY23 as the GDP grew at a robust pace of 6.1%, beating most estimates. This resulted in a full-year growth at 7.2%, exceeding even the government's own estimate of 7%.

The higher-than-expected growth in the fourth quarter was aided by healthy growth in construction (10.4%), hotel and transport (9.1%), agriculture (5.5%) and manufacturing (4.5%) sectors. The economy had grown at 4.4% in the third quarter of FY23.

For the current year (FY24), the RBI has projected a GDP growth rate of 6.5%. According to Chief Economic Advisor V Anantha Nageswaran, India

can expect another year of solid economic performance. "Risks are more evenly balanced now as envisaged four months ago. There is a good chance that India may exceed this number (FY24 estimate) this fiscal," he said.

The fourth quarter also saw strong growth of 8.9% in infrastructure investment and asset creation. However, private consumption continues to be a drag as it grew only 2.8% in Q4. Most experts advise caution, saying it's too early to celebrate.

"We must abstain from reading too much into high frequency growth numbers. Continued fiscal and monetary policy coordination is crucial," said Lekha S Chakroborty, professor, National Institute of Public Finance and Policy.

NIA conducts raids in Shivamogga, DK districts in PFI conspiracy case

EXPRESS NEWS SERVICE @ Mangaluru

THE National Investigation Agency (NIA) on Wednesday raided multiple locations in Dakshina Kannada and Shivamogga districts in connection with the banned Popular Front of India's (PFI) conspiracy to radicalise and train its cadres to carry out acts of terror.

Raids were also conducted at 25 locations in Bihar and Kerala, according to a statement from NIA. Searches were conducted on the premises of the suspects in Katihar district of Bihar,

Dakshina Kannada and Shivamogga districts of Karnataka, and Kasaragod, Malappuram, Kozhikode and Thiruvananthapuram districts of Kerala. Digital devices, including mobile phones, hard disks, SIM cards, pen drives and data cards, and incriminating documents and material related to

LOKAYUKTA RAIDS

The Lokayukta police raided 57 locations linked to 15 government officials on Wednesday and unearthed assets worth several crores of rupees. **P7**

EXPRESS NEWS SERVICE @ Bengaluru

HOLDING that rape of a dead woman will not attract an offence punishable under the provisions of Section 376 of IPC, the Karnataka High Court recommended to the Union government to amend this Section to introduce the term 'dead body' so that the culprits, who indulge in such acts (rape the dead bodies of men, women or animals), are sentenced to life imprisonment.

The Union government

should amend the provisions of Section 377 or introduce a separate provision as an offence against dead women as necrophilia (sexual assault on dead body) or sadism as has been done in the UK, Canada, New Zealand and South Africa,

the banned organisation were seized. The sleuths also seized Rs 17,50,100 from the accused.

So far, 85 locations across the country have been raided in connection with the case. In Dakshina Kannada, raids were conducted in Puttur and Bantwal.

Acting on a tip-off, Bihar police raided a rented premises of one Athar Parvez on July 11, 2022, and seized incriminating articles related to PFI, including a document titled, "India 2047 Towards Rule of Islamic India, Internal Document: Not for circulation". **P7**

VACUUM IN LAW

Sexual assault on dead body not rape, says HC

to uphold the dignity of dead persons, especially women, said a division bench of Justices B Veerappa and Venkatesh Naik T in an order on May 30.

The court passed the order while setting aside the 10-years imprisonment imposed on Rangaraju for raping a woman after murdering her in Tumakuru district and confirming the imprisonment for life with a fine imposed by the sessions court on him in August 2017. Rangaraju had murdered a 21-year-old girl by slitting her throat while she was returning

home from after computer classes in June 2015.

Also, taking note of media reports of alleged incidents of guards raping dead bodies, especially of young women in mortuaries, the court said the state government should put an end to such crimes. Unfortunately in India, no specific legislation has been enacted, including under IPC, for upholding the dignity and protecting the rights of dead persons, especially women, and for preventing crimes against them, the court added. **P7**

'Ram' in Chhattisgarh

ADVERTORIAL

THE 'RAMAYANA MAHOTSAV' IS BEING HELD IN CHHATTISGARH TO PERMEATE THE PROVIDENCE OF 'RAMAYANA MAHOTSAV 'LORD RAM' IN THE STATE

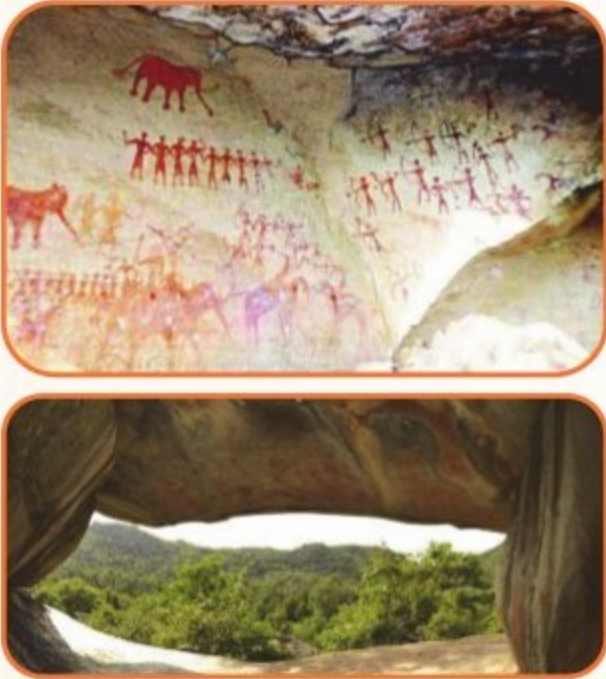

Ram, not just a name here... is a symbol of faith, belief, devotion, affinity, courage, strength, dignity and self-respect. Along with the name of Ram, many glimpses of his personality are also seen in the people here. This is the birthplace of Mata Kaushalya and the 'Nanihal' (Maternal home) of Shri Ram. This is Chhattisgarh, which was known as 'Dakshina Kosala' in the Ramayana era. Mata Kaushalya's father Sukaushal was the king of this region. Due to this, even today the people of Chhattisgarh consider Lord Shri Ram as their 'nephew' and worship him in this form. Keeping in view the unwavering faith in 'Ram' in the people here, the state government is developing the 2226 kilometer long Ram Van Gaman Circuit. A series of tourist pilgrimages are being developed here for those who have faith in Ram. In this episode, to spread the story of Ramayana, the first 'National Ramayana Festival' is going to be organized here in Raamleela Maidan of Raigarh district.

Ram Van Gaman Tourism Circuit Chhattisgarh

Lord Rama has innate connection with Chhattisgarh. According to legends, this is what Lord Shri Ram had told during his long period of exile. The Government of Chhattisgarh is working on a comprehensive plan to preserve and develop the paths through which Lord Shri Ram passed during his exile as a tourist pilgrimage. Under this, about 2200 kilometer long circuit is being developed. Till now the development work of tourism infrastructure has been done in 9 places.

A glimpse of the Ramayana context is seen in the rock paintings

A new beginning in taking Ram Katha to the masses through a different medium was made with those rock paintings which are seen in Ongana of Raigarh. There is a folk tradition here that Ramkatha is depicted in the hills of Ongana. Here a person with ten heads is shown fighting with a young man. It is believed that the person with ten heads is Ravana and the person fighting with him is Shri Ram. In this way, the seed of the artistic presentation of Ramkatha, which was planted by the rock painters in Ongana, will now have its special artistic presentation in the form of Ramayana Mahotsav. According to legends, the pictures made in these rock shelters of Ongana hill made thousands of years ago show the influence of Ramayana in the society of that time. The saga of Ramayana is being heard for generations. Its different forms are prevalent in different parts of the country. But the mention of Ramayana context in the form of archaeological remains is rare.

The National Ramayana Festival is being organized at the historic Ramlila Maidan in Raigarh, the city of art and culture of Chhattisgarh.

Format of National Ramayana Festival

Tableau display groups' from all states and union territories have been invited. Chief Minister Mr. Bhupesh Baghel has sent a letter to the Chief Ministers of all the states and the administrative heads of the Union Territories, asking them to display the Ramayana 'Tableau display groups of their states and union territories in the National Ramayana Festival 2023, to be organized in Chhattisgarh from June 1 to 3, 2023. The Chief Minister has written in his letter that the grandeur and dignity of this National Ramayana Festival will increase with the participation of the States and Union Territories. Mr. Baghel has also written in the letter that there will be competitive programs under the National Ramayana Festival, in which the theme of the dance drama to be presented will be based on the Aranya-kand of the epic Ramayana. The National Ramayana Festival is being organized at the historic Ramlila Maidan in Raigarh, the city of art and culture of Chhattisgarh.

The officers of the Culture Department said that Ramayan teams from nearly 12 states, including Madhya Pradesh, Uttar Pradesh, Maharashtra, Kerala, Goa, Assam, Uttarakhand and Himachal Pradesh have agreed to participate in the National Ramayana Festival. The event will also feature attractive stage presentations of the epic by Ramayan artists from foreign countries. Interestingly, the tradition of the stage performance of the Ramayana is prevalent in South-Eastern countries as well, and the teams from these countries will participate in the Ramayan Festival.

The three-day event will feature daily performances by eminent artists at the national level. Stars from Indian Idol and Saregama, Shanmukha Priya and Sharad Sharma, will participate in the event on June 1. Famous singers Baba Hansraj Raghuvanshi and Lakhbir Singh Lakha will present their musical performances on June 2. Famous Bhajan singer Maithili Thakur and popular poet Kumar Vishwas will present their renditions of the story of Lord Shri Ram on June 3. At the initiative of Chief Minister Mr. Bhupesh Baghel, the Chhattisgarh Government is developing places in the state connected with Lord Ram's journey during his exile through the ambitious scheme of the Ram Van Gaman Tourism Circuit. These places, which range from Surguja to Bastar, are being developed as tourism spots by the government.

National Ramayana

Festival in cultural city Raigarh

ADVERTORIAL

९९

The Chhattisgarh Government is fully committed to safeguarding and promoting the state's rich cultural and religious heritage. Shri Ram and the Ramayana hold an integral position within our culture. In its continuous efforts to preserve our heritage and strengthen our connection with Shri Ram, the state government has undertaken the renovation of the temple dedicated to Mata Kaushalya. Additionally, the annual Kaushalya Mahotsav is being celebrated. Furthermore, the state government is diligently working towards identifying and recognizing the locations associated with Lord Shri Ram's journey as the 'Ram Van Gaman Path'.

- Bhupesh Baghel
Chief Minister, Chhattisgarh

- ▶ Chhattisgarh will be imbued with the glory of Lord Ram
- ▶ Ramayan teams from more than 12 states to participate in the national event
- ▶ Event will contain the exquisite performance by the guest of other countries too
- ▶ The presence of prominent artists and poets will adorn the holy event
- ▶ Program will feature performances by Kumar Vishwas, Maithili Thakur, Baba Hansraj Raghuvanshi, Lakhbir Singh Lakha, Shanmukha Priya, and Sharad Sharma
- ▶ 'National Ramayan Festival' will be organized in Raigarh's Ramleela Maidan from 01 to 03 June

Tulsi Village's Enchanting Sculpture:

Witness Lord Shri Ram, Lakshman, Mata Sita crossing the sacred Ganges with the benevolent assistance of Nishad Raj. The village is home to Temples and Ashrams amidst natural beauty.

Chhattisgarh reverberates with the spiritual energy of Lord Shri Ram, as his divine presence pervades every nook and cranny of the state. A captivating sculpture inspired by the events of the Ramayana has been crafted in Tulsi village situated near Shivnath River. This artwork portrays Lord Shri Ram, Lakshman, and Mata Sita crossing the sacred Ganges with the benevolent assistance of Nishad Raj. The sculpture revives the enchanting tale of Lord Shri Ram, Lakshman, and Mata Sita crossing the river during the exile period. The state government is developing Tulsi village as a popular tourist destination. A project plan is being chalked out for this purpose. It is worth mentioning that under the 'Ram Van Gaman Tourism Circuit' project, the state government is creating a circuit of places associated with Lord Shri Ram to preserve the memories of his journey in Chhattisgarh. Tulsi village is home to temples and shrines located in all four directions, attracting frequent visits from visitors and devotees. In addition to tourists from the state, a large number of tourists from other states have also started coming here. This temple in Tulsi village, adorned with trees and plants, situated on the banks of the Shivnath River, provides a peaceful ambiance for visitors. Adjacent to the temple, beneath the Muktidham, is 'Ramghat Pushpasthali' where the village residents and nearby devotees engage in activities including sacred bathing, meditation, offering prayers, and performing ash immersion rituals. Presently, the villagers have also initiated the Shivnath Ganga Aarti from Cherchera Punni, which takes place at various times throughout the day. To the south of Ram Mandir lies Mohan Tapu, a picnic spot. The construction of an annicut, thanks to government initiatives, ensures consistent water storage throughout the year. Besides, to cater to the water requirements of farmers, the state government has also implemented a lift irrigation project. At the heart of the village stands a temple dedicated to Maa Mahamaya, radiating her divine presence. Heading north, near the village pond, lies a Jaikham dedicated to Baba Guru Ghasidas Ji and a grand temple and ashram. Every January, a fair is organized here, attracting followers of the Satnami sect. Furthermore, Damakheda, the center of the Kabir Panth, is located five kilometers from Tulsi village. At a distance of three kilometers, the ancient Chitawari Devi Temple, a site of archaeological significance, can be found. Lastly, two kilometers away, is the Mauli Mata-Shakti Mata Temple which attracts a large number of tourists and devotees. Tulsi village is home to folk artists performing various folk traditional genres including Ramayana Mandalis, Ramleela, Satnam Dhuni, Gaura-Gauri, Jasgeet, Bansgeet, Raut Nacha, Sua, Gadwa Baja, Phag geet, Nacha, and Chandaini. The state government is also committed to the village's development, and the district administration is actively formulating special development plans for the village. Several construction projects, such as electrification, gardens, high mast lights, Muktidham, boundary walls, stage, community hall, check dams, CC roads, leveling of grounds, and boating facilities, are currently underway.

2024 IS NEW DEADLINE FOR SEWAGE-FREE BELLANDUR LAKE

Minister Khandre warns officials against laxity in following NGT order on desilting waterbody

EXPRESS NEWS SERVICE
@Bengaluru

FOREST, Ecology, and Environment Minister Eshwar Khandre on Wednesday visited the city's largest waterbody — Bellandur Lake — and inspected the ongoing desilting work. Speaking to reporters, Khandre said the lake will be free of sewage by 2024.

Bellandur Lake, spread across more than 900 acres in the eastern part of the city, has always been in news for all the wrong reasons - from catching fire to frothing.

Khandre took stock of the efforts of the Bangalore Development Authority (BDA) in desilting the lake. He also held a meeting with officials of the Karnataka State Pollution Control Board (KSPCB), Bruhat Bengaluru Mahanagara Palike (BBMP), and Bengaluru Water Supply and Sewerage Board (BWSSB) and directed them to take stringent action against

Minister Eshwar Khandre inspects Bellandur Lake area on Wednesday | EXPRESS

those polluting the lake.

Hitting out at the previous BJP government, Khandre said that desilting of the lake and other STP-related works should have been completed long ago, but things kept dragging during the previous regime.

The minister sought an explanation from officials why there was a delay in complying with

the NGT directives in preventing sewage entering the lake and warned officials against laxity in following the NGT order.

"Bellandur Lake is in the news for all the wrong reasons. This has to change. Despite NGT order, only half the work is complete. I have directed the officials concerned to deploy more lorries to clear the silt.

Officials told me that the STP work will be completed by 2024 and no sewage will enter the lake. No delay will be entertained," he added.

Asked about encroachment of the lake and industrial waste entering it, Khandre said officials have imposed fines to the tune of crores of rupees and will soon book cases against such offenders. "In case of official apathy, action will be initiated," he said.

BWSSB officials said there are 14 STPs in the vicinity of Bellandur Lake that can handle up to 583 MLD of sewage, and presently, 550 MLD is treated.

"Capacity of STPs range from 1.5 MLD to 218 MLD and five are renovated and the rest need to be upgraded... and this will take at least a year. Almost 70% of sewage is managed and only 30% that comes from the 110 villages that were merged with BBMP need to be tackled," a BWSSB official added.

Following instructions from the School Education Department, mid-day meals resumed from the first day of school reopening on Wednesday | VINOD KUMAR T

A SWEET START FOR STUDENTS BACK AFTER SUMMER VACATION

EXPRESS NEWS SERVICE
@Bengaluru

SCHOOL Education and Literacy Minister Madhu Bangarappa kicked off the reopening of government schools on Wednesday by distributing sweets, textbooks and uniforms to students.

Government schools in the state reopened on Wednesday, welcoming students to the first day of the 2023-24 academic year. As part of this, the School Education Department ordered sweets to be distributed to students on the first day, with the newly appointed minister leading the charge in several government schools in rural Karnataka, including in Devanahalli. "We distributed sweets, textbooks and government uniforms to the students. I wish them a bright future on the resumption of their education," he said on social media.

As many as 44.78 lakh state syllabus students returned to their schools across the state as the new academic year began. A similar sight was seen across the state, with sweets, uniforms and textbooks being distributed to the students ahead of the start of their

classes. Ahead of schools reopening, teachers and other staff had facilitated the cleaning up of the schools on Monday and Tuesday.

Meanwhile, according to the School Education Department and the Karnataka Text Book Society (KTBS), uniforms and textbooks were distributed to the schools and were only pending direct distribution from teachers to the students on the first day of schools.

Meanwhile, the department had also ordered the immediate resumption of the midday meal scheme from the first day. In this context, Akshaya Patra Foundation also resumed their services in providing midday meals to around 70,000 children in 1,272 government schools in the Bengaluru city area. "We are pleased to restart mid-day meals after the summer vacation in Karnataka. Our foundation firmly believes that no child should be deprived of education because of hunger. By providing nutritious meals, we aim to ensure that every child receives the necessary nourishment to thrive academically and physically," said the foundation's vice-chairman Chanchalapati Dasa.

Textbook revision in phased manner

With the new government at the helm, there was confusion regarding the status of textbooks due to possible revision. However, keeping in line with the Congress' promise, School Education and Literacy Minister Madhu Bangarappa said the textbooks will be revised in a phased manner. Currently, textbooks will remain unchanged till further notice.

Namma Nimma initiative for kids: Write a letter and cycle to post it

S LALITHA @ Bengaluru

A novel initiative to promote letter writing as well as cycling will be organised in the city by Bengaluru Postal Region and Namma Nimma Cycle Foundation.

The month-long programme will begin on World Cycling Day (June 3) simultaneously at 10 post offices in South Bengaluru.

S Rajendra Kumar, Chief Postmaster General, Karnataka Circle, told *TNIE* that students will be urged to write letters at home and bring them to post offices. Employees at post offices will help students to post their letters. "We are looking at students cycling upto 3 km to the nearest post office to take part in the event. The best letters will be given prizes to

motivate students," he said.

Inspiring and popular letters written by prominent personalities in the past will be digitised and displayed at all post offices, he said.

HR Murali, CEO of Namma Nimma Cycle Foundation, which has been promoting cycling for the last decade, said the programme will be held between 8 am and 9 am on all Saturdays. "The programme will

promote cycling among children apart from building a bond with the postal department," he added.

The event will be held at post offices at Jayanagar, Basavanagudi, JP Nagar and GPO in the first week. At HAL II Stage, Koramangala 6th Block, Malleswaram, Sadashivanagara and Bengaluru University in the subsequent weeks, Murali said.

In all, 650 students from four schools are expected to take part with 300 of them cycling and 350 writing letters.

The letters should be addressed to the postmaster on the theme, Visit Karnataka, Cycle in Karnataka. The best three letters at each post office will be awarded cash prizes of Rs 3,000, Rs 2,000 and Rs 1,000 every week, the CEO said.

Agri university urges tobacco growers to adopt other crops

'STOP TOBACCO' APP GETS 530 PLAINTS

Namrata Sindwani @Bengaluru: Since its launch in February, as many as 520 complaints have been reported on the Stop Tobacco app. Sale of tobacco to minors and around school premises as well as smoking in public places were the major complaints, officials said. Action under Sections 4, 6A and 6B of COTPA has been taken on all complaints and Rs 8,000 in fines have been collected so far. **ENS**

Students showcase a tableaux on harmful effects of tobacco | VINOD KUMAR T

EXPRESS NEWS SERVICE
@Bengaluru

IN line with the theme of World No Tobacco Day - We want food not Tobacco - the University of Agricultural Science (UAS), Bengaluru, and Consortium for Tobacco Free Karnataka (CPTFK) have urged tobacco farmers to shift to other economical crops.

"UAS is willing to support tobacco farmers to shift to other alternative crops. If the state government extends financial

support, we can demonstrate models," said Dr S V Suresha, vice-chancellor of UAS.

Nearly 50 tobacco-growing farmers from Mysuru, Belagavi and other regions took part in the consultation where adopting alternate crops like sugarcane, maize, pulses and millets were discussed. Kumar, president of Mysore District Farmers' Association, said, "The government encouraged us to grow tobacco, now it has to help us to shift to other crops as many farmers

like me have realised the harmful effects of tobacco."

Health Minister Dinesh Gundu Rao took part in a clyothoon to create awareness on the harmful effects of tobacco. The event was organised by the State Tobacco Control Cell. In another event, organised by the Karnataka No For Tobacco, hundreds of students carried out a rally from Freedom Park to Vidhana Soudha holding placards and showcased tableaux depicting the harmful effects of tobacco.

Daily Starscope

PETER VIDAL

01st June: When did time begin? This was a question I was discussing recently with some philosophers. The problem is that, if we say time began at a certain point, we have to know what time it was when time began. And if time didn't exist already, we wouldn't know what time it was. Don't worry - I don't understand it, either!

ARIES (Mar 21 - Apr 20)

The elegant motion of planets through your chart is already prompting you to think about ways to raise the quality of your life. For some of you the answer lies in long-distance travel, for others the need is to stretch your imagination, perhaps to embark on a creative journey.

TAURUS (Apr 21 - May 21)

Your business stars are strong, and looking increasingly constructive. Both on the financial and personal levels, it's clear that choices you make now will be of lasting value, perhaps more so than you suspect. The only snag is that it might be some time before you see this.

GEMINI (May 22 - June 21)

Teamwork and partnership are still the order of the day, and even if you're thinking of breaking an arrangement, it should be with partners' agreement. Plus, at work, it will be your personal feelings which count. But don't forget the facts, though.

CANCER (June 22 - July 23)

Your energy level goes through a slight jolt. You'll either be getting back to work after a break, or at least returning to your duties with renewed enthusiasm following recent distractions. This trend will be enhanced if you focus on the areas which actively engage your finer qualities.

LEO (July 24 - Aug 23)

You should soon have the perfect opportunity to take stock, and work out how exactly you may free yourself from certain constraints. Above all, you should concentrate on those areas of your life which allow you to indulge your theatrical and dramatic qualities.

VIRGO (Aug 24 - Sept 23)

Money has often been in short supply, but your new long-term cycle reveals that your prosperity is likely to increase. The first indication should be a change in attitudes. A feeling that you are more prosperous will precede the actual change in circumstances.

LIBRA (Sept 24 - Oct 23)

Today's stars are generally rather lively, and you will have a number of choices set out before you. The whole question revolves around whether you are ready to put matters of the heart before everything else. If you are, then you might have to make a sacrifice somewhere else.

SCORPIO (Oct 24 - Nov 23)

You may be subject to greater than average mood swings today. It's good to know this in advance, because then you'll be sustained through any low points by the knowledge that better times are on the way. If there's one thing that's constant, it's change!

SAGITTARIUS (Nov 23 - Dec 22)

Mars and Pluto are perfectly aligned in sensitive places in your chart. You would do well to sit back and contemplate your future, making plans for the next year at least. But, in the mean time, you need to work fast to avert an upcoming emotional collision.

CAPRICORN (Dec 23 - Jan 20)

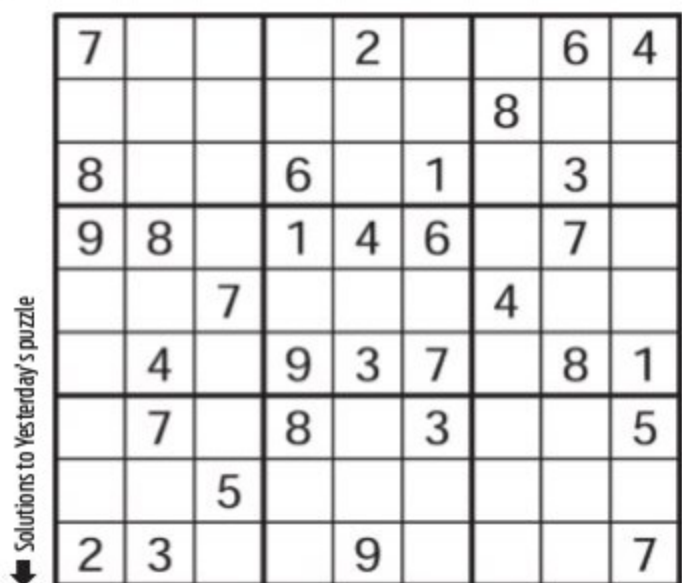

Discretion is the better part of valour. You may spare a little time for solitary pursuits, for those things which are sometimes ignored because they please you but don't interest partners. You may, if you wish, leave family spending until next week.

AQUARIUS (Jan 21 - Feb 19)

Public and professional affairs seem to be more important than the purely personal. This doesn't mean that you're becoming a workaholic, for community and social responsibilities should also be taking much of your time. Somebody deserves your attention - so don't hold back.

PISCES (Feb 20 - Mar 20)

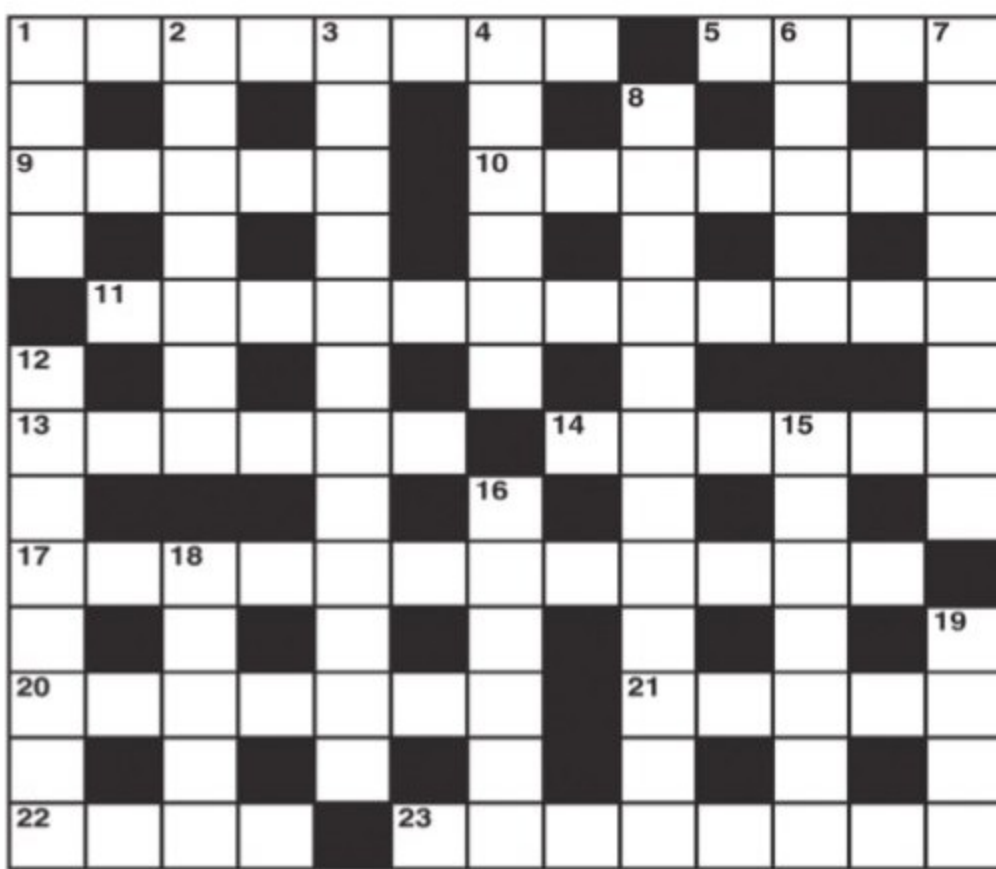

You may take a long, searching look at conditions affecting both love and work which have developed over recent months. Romantic decisions you take now will bear fruit in about three months' time. If you're wondering whether you should get in touch with someone, try to find the right words first.

Proud Bengaluru boy takes charge as top cop, promises tech push

EXPRESS NEWS SERVICE
@Bengaluru

"BENGALURU being the 'unicorn capital' and 'decacorn capital' of India, policing has to be of the same high standard. City policing is both a charm and challenge. Any changes and improvements required for better policing will be done," Bengaluru Police Commissioner B Dayananda said at his maiden press conference, after taking charge as 38th police chief on Wednesday.

City policing will be more visible instead of being office-oriented, desktop, tabletop, laptop or palmtop. Challenges in the department will be addressed with support from all police officers working in the city. "Since I am from Bengaluru, I have seen the city police very closely. I am proud to be called a Bangalorean. Adapting technology in policing will be the main focus, and policing will be people-friendly," Dayananda said.

"I have two years experience as additional commissioner in the traffic department, and am aware of the traffic management problems Bengaluru faces. It is a multi-departmental subject. Traffic problems cannot be addressed just by the traffic police. Cooperation from other civic agencies like BBMP and Urban Development Department is necessary to ease traffic congestion, and the problems when it rains. Traffic constables are the backbone of traffic management and their suggestions will be taken to address traffic-related issues," he said.

Intelligence-led policing will be the priority and tough action will be taken against rowdies. The city police and CCB are well-equipped to tackle rowdy activities, he said.

PRAVEEN KUMAR @Bengaluru:

EVERY person walking on the road is a James Bond, and errant cops cannot go unnoticed for long with the kind of technology available with the common citizen, says Bengaluru Police Commissioner B Dayananda. The efficiency of every police officer at the police station level will be judged by the number of petitioners or complainants who come to my office, he told TNIE.

What is the vision of the new police commissioner?
Access to police or justice should not be only for the rich, powerful and politically influential people but also for common citizens. This vision has been conveyed to all officers serving in the city.

What measures will be taken to tackle cyber crime cases?

B Dayananda takes over as Bengaluru City Police Commissioner from outgoing chief B Prathap Reddy on Wednesday | NAGARAJA GADEKAL

Simple cyber crime cases can be dealt with at the jurisdictional police station level as they don't require much expertise and complicated procedures. Cases pile up because investigating officers require cooperation from service providers in gaining access to login details. In financial cases, cooperation from banks plays a vital role in getting details of bank accounts and addresses of account holders. Serious cyber cases, like bitcoin deals, have to be registered with the CEN police station or the Criminal Investigation Department (CID) cyber crime division.

What is the importance of social media in policing?
Social media is a double-edged sword. It has both advantages and disadvantages. Bengaluru City Police have a good connect

with people and can reach a larger audience through it. However, if it is misused or abused to disturb peace in society, stringent action will be taken. Action has been taken against police personnel based on complaints on social media.

What measures will be taken to solve the problems of aggrieved citizens at the police station level?

The efficiency of every police officer will be judged by the number of petitioners or complainants who come to the office of the police commissioner. This has been conveyed to all the officers. All problems have to be addressed at the police station level itself. If complainants approach higher officials, it shows the inefficiency of police officers at the station level. No aggrieved person wants to approach senior officials, and do so only when the local police do not respond or act, or do some damage. Their Annual Confidential Report (ACR) will be decided based on the number of petitioners who reach my office.

What action will be taken against erring officers?
There will be transparency in transfers. Earning officers will have to face the consequences. It is not like the system has protected them or rewarded them. The situation is not what it was 20 years ago when there was no social and digital media. Anyone trying to hoodwink the system in these times is a fool, and will definitely get caught.

Minister for Higher Education Dr MC Sudhakar Reddy interacts with students and parents during a visit to the CET cell at Malleswaram in Bengaluru on Wednesday

MANTRI'S MANTRA

HC bins plea, says lakhs benefited from Dharwad, K'buragi Benches

EXPRESS NEWS SERVICE
@Bengaluru:

OBSERVING that the Circuit Benches of the High Court at Dharwad and Kalaburagi were first set up and later converted into permanent benches, after taking into consideration various factors and interests of the litigant public, the Karnataka High Court dismissed a public interest litigation filed against the establishment of those Benches.

On May 30, a division bench of Justice B Veerappa and Justice KS Hemalatha dismissed the petition filed by city-based advocate NP Amrutesh in 2014, seeking to strike down establishment of the HC Circuit Benches at Dharwad and

Kalaburagi in 2004, on the ground that there shall be a High Court for each state, in view of the provisions of Article 214 of the Constitution. He also sought directions to conduct a performance audit with regard to investment, expenditure and functional viability of those benches by the Comptroller and Auditor General of India.

"The distance from Bengaluru, which is the principal seat of the High Court, to various district centres of North Karnataka ranges between 425km and 613km, and hence litigants from all those districts have to travel a long distance to reach the principal

seat of the High Court. It is highly expensive, besides being time-consuming... In the circumstances, it is not open for the petitioner to contend that the establishment at Kalaburagi and Dharwad is a futile exercise. In fact, lakhs of people benefited from the establishment of the courts and the people of North Karnataka are happy..." the court said. "As the courts came to their doorstep, awareness of legal rights has increased in the citizens of North Karnataka and accordingly, the litigants approached the courts with great expectations of speedy and qualitative justice," the court observed.

VACANCY IN AIR FORCE SCHOOL CHIMNEY HILLS

CM sheds burden, allocates infra to MB Patil, IT-BT to Priyank

This will allow Siddu time to prepare budget, likely in first week of July

EXPRESS NEWS SERVICE
@Bengaluru

CHIEF Minister Siddaramaiah allotted two of the key portfolios remaining with him to two of his cabinet colleagues -- MB Patil and Priyank Kharge -- on Wednesday. Governor Thawarchand Gehlot issued a notification in this regard.

Patil, who is large and medium industries minister, has been given the additional responsibility of infrastructure. Priyank, son of AICC president Mallikarjun Kharge, has now been given the IT-BT portfolio along with the Rural Development and Panchayat Raj.

Patil held the water resources portfolio in the earlier Siddaramaiah government during 2013-18. He had made a name for himself by implementing several projects.

In the JDS-Congress alliance government led by then CM HD Kumaraswamy in 2018 and 2019, he was the home minister (2018-2019). The Babalshwar MLA is a civil engineer and runs a number of educational institutions in Vijayapura district.

Priyank held the IT-BT and tourism portfolios in 2016 and 2018. He was the youngest to be sworn in at the age of 38 then. He was later the social welfare

Kanugolu to be appointed adviser to CM

Sunil Kanugolu, the poll strategist of the Congress, will be appointed as adviser to CM Siddaramaiah, with the rank of a cabinet minister. CMO sources said the appointment order will be issued. Kanugolu is said to have played a vital role in the Congress' thumping victory in the Assembly polls. He helped the party set narratives against the BJP government and also gave inputs to state and central leaders on various issues, including the selection of candidates. Congress sources said the party's state unit has decided to take his assistance for the 2024 Lok Sabha polls. The party has set a target of winning 20 out of 28 LS seats in the state. After its stupendous performance in the Assembly polls, the Congress is keen to maintain its winning momentum in the state, and Kanugolu's appointment as the CM's adviser is also said to be part of that effort.

minister in the Congress-JDS alliance government. After shedding the two portfolios, Siddaramaiah has continued with finance, cabinet affairs, Department of Personnel and Administrative Reforms, intel-

ligence, information and all unallocated portfolios. The chief minister has gotten rid of the two important portfolios as he has to focus on the budget, likely to be presented in July first week.

Deputy Chief Minister DK Shivakumar has breakfast with his Congress colleagues Satish Jarkiholi, Laxmi Hebbalkar, NH Konaraddi, and Jagadish Shettar, at Shettar's residence in Hubballi on Wednesday | D HEMANTH

DEPUTY Chief Minister DK Shivakumar met former chief minister Jagadish Shettar in Hubballi and former deputy chief minister Laxman Savadi in Belagavi on Wednesday and said both Shettar and Savadi have played a crucial role in building the party stronger.

After his meeting with them, Shivakumar told the media in Belagavi that both Shettar and Savadi are the party's prominent leaders, irrespective of them winning the election or not.

The two leaders joined Congress when the party was facing tough times, he said, adding that he was unable to meet them after the elections because of his busy schedule. "I had a lot of other commitments after the party formed the government. I was busy with cabinet formation, legislature party meetings, department reviews, implementation of five guarantee schemes etc. Somehow, I managed to meet Savadi and Shettar today," he said.

Shivakumar said he met the two to discuss the party issues and also took their suggestions.

Shivakumar said Savadi and Shettar had joined the party unconditionally and the party is committed to protect their interests. "As a Congress party's president, I have come to meet them. The two are our leaders," he reiterated.

There were murmurs of discontent among followers of Shettar over Congress not giving him any position and they seemed little pacified after the meeting.

Shivakumar told Shettar that the party is with him. But he did not reveal how Shettar, who lost the Assembly election from Hubballi Central, will be rewarded.

Shivakumar visited Shettar's residence with Public Works Minister Satish Jarkiholi and Woman and Child Development Minister Laxmi Hebbalkar. Only Shivakumar and Jarkiholi were with Shettar when they held a closed-door meeting. The former chief minister explained to the two leaders the reason behind his defeat, sources close to Shettar said.

Shivakumar said God neither gives a boon or a curse, but only opportunities. As people have given Congress an opportunity, the party will try to keep their faith in the party alive. "We will walk the talk," he asserted.

On Shettar's defeat, Shivakumar said, "Congress will stand behind those who remained with the party in times of difficulty. They should be patient and work on organising the party. This is the message of the party high command and I have conveyed it to Shettar."

On rehabilitating Shettar, he said, "Congress will remain with Shettar. I don't want to discuss it in public. Also, the party will not keep anything secret."

Didn't discuss my position in govt: Shettar

ENS @Hubballi

Former CM Jagadish Shettar denied that he discussed either Congress giving him a position in the government or making him a candidate for the next year's Lok Sabha elections with KPCC chief and Deputy CM DK Shivakumar, who called on him here on Wednesday.

After the meeting with Shivakumar, Shettar told the media, "Neither I placed any demand, nor Shivakumar spoke anything of it." However, Shivakumar was happy with the party's performance in North Karnataka in the Assembly polls and hailed his efforts in ensuring the victory of party candidates, he added.

On rewarding him with any position, the six-time MLA said, "The party has realised that it has gained with my entry into the party and Shivakumar too acknowledged that. The party will certainly take a decision on using my potential in the coming days. It will not be discussed further."

Stating that their discussion centred around preparing for the rural local body and parliamentary elections, Shettar said he gave some suggestions on facing these polls by strengthening the party. Shivakumar responded positively and more discussions will be held in Bengaluru in the coming days, he added.

Oz envoy to meet Siddu, Shivakumar

EXPRESS NEWS SERVICE
@Bengaluru

OUTGOING Australian High Commissioner to India, Barry O'Farrell will be meeting Chief Minister Siddaramaiah and Deputy Chief Minister DK Shivakumar during his visit to Bengaluru on June 1-2.

The high commissioner is concluding his three-and-a-half-year term in office. On Thursday and Friday, he will be meeting with both the chief minister and deputy chief minister to congratulate them on forming the new government, as well as further collaborations in Karnataka, including the opening of the new Consulate General in Bengaluru.

"Australia-India ties are at a historic high, cemented by the recent visit of Prime Minister Narendra Modi to Australia, and by Australian Prime Minister Anthony Albanese's visit to India in March. We are eagerly anticipating the opening of our new Consulate General in Bengaluru, which will connect Australian businesses to India's booming digital economy and innovation ecosystem, and reinforce our growing links in education, science and technology," O'Farrell said. Meanwhile, he will also be meeting with former prime minister H D Deve Gowda and Bengaluru South MP Tejasvi Surya, who had been a part of the Australia India Youth Dialogue.

IMPLEMENT GUARANTEES WITHOUT RIDERS: BJP TO GOVT

ENS @Bengaluru

AS the state government is working on the modalities for implementing the five guarantees given to people by the Congress during the run-up to the Assembly elections, the Opposition BJP has demanded that the government implement them without any conditions.

Speaking to reporters, senior BJP leader and former minister Govind Karjol said all the guarantees should be implemented without any conditions as promised by the Congress leaders.

He said there should not be any conditions for providing 200 units of free power, financial assistance to employed graduates, Rs 2,000 to woman heads of

household, and other guarantees. He cautioned the government against diverting funds meant for education towards the guarantee schemes.

Senior Congress leaders, including Chief Minister Siddaramaiah and Deputy Chief Minister and KPCC president DK Shivakumar, had assured people that they will implement all the guarantees in the first cabinet meeting and had also asked the people to keep the guarantee cards safe, he said. The Congress leaders had assured people that they will give Rs 3,000 in financial assistance to all unemployed graduates in the state, but now they

are talking about imposing a condition that it will be given only to those graduates who have completed their degrees this year, he said.

He urged the government to give financial assistance of Rs 3,000 to all unemployed graduates and Rs 1,500 to all those who completed diplomas and have not got jobs without any conditions. It should come to around 50 lakh to 60 lakh youth in the state, he said. He said that during the election campaign, Siddaramaiah stated that 200 units of power would be given free for all, including those paying I-T and they should implement it now.

Chief Minister Siddaramaiah interacts with farmers at his home office Krishna in Bengaluru on Wednesday | EXPRESS

CM directs officers to resolve issues on ragi MSP

BENGALURU: Chief Minister Siddaramaiah on Wednesday directed officials to immediately resolve issues of payment under the minimum support price scheme for ragi growers. Listening to the grievances of ragi growers and other farmers from Jagalur in Davanagere district, who had met him at his home office Krishna, the CM spoke to the concerned official over phone and directed him to fix the technical problems causing delay in payment to the farmers and resolve the issue immediately. The ragi farmers had complained to Siddaramaiah about the delay in payment under the MSP scheme. ENS

'Understand my earlier remark, won't dissolve JDS'

ENS @Bengaluru

RESPONDING to critics asking the JDS leadership when the regional party would be dissolved, party senior leader HD Kumaraswamy tweeted saying he does not want to respond to irrational statements. "I am experiencing the pain of defeat while they are experiencing the pride filled high of a victory. Time is not far when pride will go before a fall. I am willing to wait."

Netizens are taunting Kumaraswamy, reminding him of his statement before the polls that he would dissolve the party if it did not win 123 seats. Kumaraswamy, in a series of six tweets, said, "They are saying Kumaraswamy had said he would dissolve the party, when will it be dissolved, when will it be cremated? It has come to my notice that some half baked ministers and MLAs are making some inappropriate and in-

sensitive statements and I am concerned about their ignorance. I am concerned about the knowledge of Kannada of some of them. If they are not able to read Kannada let them come to me, I will teach them."

He recalled, "I had said if I am not given 123 seats and if I don't implement the Pancharatna schemes as promised, I will dissolve the JD(S) party and then I will never come to your doorstep to ask for votes."

He tweeted, "I had never imagined that a minister who had no common sense would have this kind of ignorance, and his next administration, which was so foolish, was now a matter of concern. All I have to say to the uncultured people who have given statements of party dissolution and last rites is that I have not got 123 seats, the people have not allowed the pancharatna to be implemented, so there is no dissolution of the party."

GIVE GOVT TIME TO IMPLEMENT GUARANTEES: VISHWANATH

BANSY KALAPPA @Bengaluru

WHILE BJP has been baying for the newly-minted Congress government's blood over its five guarantees, BJP MLC Adagur Vishwanath caused a stir in the opposition camp on Wednesday, saying, "The opposition should not create any chaos and allow Congress to do its job. Obviously, systems need to be put in place before these

schemes are rolled out. Let us be calm and allow them to execute the promises made."

He recalled that in the seventies, just like these measures, the Anganwadis were an extremely futuristic welfare scheme started in T Narasipur by B Rachaiiah, who went on to become minister and later a governor. The Union government was so impressed with the scheme that then Prime

Minister Indira Gandhi inaugurated it and implemented it in 1975, he added.

Vishwanath, who served as primary and secondary education minister and said to be the brain behind the Yashaswini Health Scheme that was implemented when SM Krishna was chief minister, said, "People

are burdened with school and college fees of children and healthcare expenses that are high. The government needs to work on making quality education and healthcare affordable."

He said the government should ensure that fake seeds, pesticides and fertilisers that affect farmers directly are weeded out. The

government should ensure that farmers have access to subsidised loans too, he suggested. On Congress guarantees bleeding the state's finances, economist Dr Narendra Pani said, "These are welfare measures aimed at growth and development and should be encouraged."

These are not so much freebies as necessities. Real freebies are when land is given to rich industrialists or the IT sector at throwaway prices when they can well afford to buy land at market value. Giving food and doles to unemployed should not be criticised."

The opposition should not create any chaos and allow Congress to do its job. Obviously, systems need to be put in place before these schemes are rolled out — Adagur Vishwanath, BJP MLC

Atheeq new Additional CS, finance dept

EXPRESS NEWS SERVICE
@Bengaluru

ADDITIONAL Chief Secretary, Rural Development and Panchayat Raj (RDPR) Department -- Atheeq L K -- has been transferred and posted, with effect from June 30, as Additional Chief Secretary, finance department, with the post falling vacant following ISN Prasad's retirement on June 30.

The notification issued by the state government on Wednesday also stated that Atheeq is placed in concurrent charge with immediate effect of the post of Officer on Special Duty, Finance Department, in the temporarily created post.

Atheeq had earlier worked as Principal Secretary to the Chief Minister, from 2016 to 2018, when Siddaramaiah was the CM, and he had also worked in the Prime Minister's Office (PMO).

With the state government working out the details for implementing the guarantees promised by the Congress in the run-up to the Assembly polls, and with Chief Minister Siddaramaiah presenting his budget, the post of ACS, Finance will be crucial. The government has to mobilise resources for implementing the guarantees by ensuring that it will not have any implications on the ongoing works or be a constraint to the state government to take up new projects.

TN OPPOSES DKS' REMARKS ON MEKEDATU

Karnataka is rubbing Tamil Nadu the wrong way: Water Resources Minister Duraimurugan

EXPRESS NEWS SERVICE @ Chennai

THE statement of Karnataka Deputy Chief Minister DK Shivakumar, who also holds the irrigation portfolio, that his government would build a dam across the Cauvery at Mekedatu has riled political parties in Tamil Nadu. Tamil Nadu Water Resources Minister Duraimurugan has said that the state would firmly oppose the proposal at all levels, and parties, including the state unit of the Congress, have condemned it.

"It is surprising to see that Mr Shivakumar chose to rub the neighbouring state on the wrongside within a few days of

assuming office. I think officials may not have given him the full details of the Mekedatu issue," Duraimurugan said in a statement in Chennai on Wednesday.

He also recalled that the verdicts given by the Cauvery Water Disputes Tribunal and the Supreme Court have no reference about the dam. "Hence, building a dam at Mekedatu or building any other structure is not permitted in the uncontrolled intermediate catchment areas where Tamil Nadu has rights as it will affect TN's interests. It is therefore inappropriate to say Karnataka will

construct a dam at Mekedatu," Duraimurugan said.

Greeting Shivakumar on the Congress' electoral victory in Karnataka, Duraimurugan said, "I think I will have a chance to meet him in person very soon. Let us discuss the issue in detail. Till then, I hope Mr Shivakumar will keep his patience."

Meanwhile, PMK founder S Ramadoss said, "Shivakumar discussing the Mekedatu dam issue in his first meeting with officials of the irrigation department shows how serious the state is about building the dam. If Karnataka builds a dam at Mekedatu, it

would turn the Cauvery Delta into a desert. To discuss the legal and political actions that need to be taken in this regard, Tamil Nadu governments should convene an all-party meeting."

Former chief minister O Panneerselvam said that without TN's permission, Mekedatu dam construction cannot take place.

"Why has CM Stalin not opposed the statement? If the CM does not do it, BJP will take steps to stop Karnataka's move," BJP Tamil Nadu president Annamalai said.

TNCC president KS Alagiri said Tamil Nadu Congress Committee would oppose the dam plan at all levels.

CM K Chandrasekhar Rao inaugurates Viprahitha Brahmana Samkshema Sadan at Gopanpally on Wednesday

KCR announces Sanskrit varsity in TS, sops for Brahmins

ENS @ Hyderabad

THE first Sanskrit university in Telangana will be established in Kulcharam in Medak district, the birthplace of the 14th-century Sanskrit poet Kolachala Mallinatha Suri. Speaking after inaugurating the Viprahitha Telangana Brahmana Samkshema Sadan, constructed at an estimated cost of Rs 12 crore on nine acres in Gopanpally, Telangana CM K. Chandrasekhar Rao announced that the university would be launched soon. He also announced several benefits for Brahmins.

KCR said the amount given to archakas under the Dhoopa Deepa Naivedyam scheme would be increased from Rs 6,000 per month to Rs 10,000. "Currently, 3,645 temples are covered under the Dhoopa Deepa Naivedyam scheme. An additional 2,796 temples will be included in the scheme, bringing the total to 6,441," he said. He said the monthly amounts provided to Vedic pandits by the Brahmin Parishad would be raised from Rs 2,500 to Rs 5,000, and the eligibility age reduced from 75 years to 65 years.

Suspects used video sites to spread PFI ideology

CONTINUED FROM PAGE 1

PARVEZ was arrested along with Mohammed Jalaluddin Khan, Arman Malik alias Imteyaz Anwer and Nooruddin Zangali alias Advocate Nooruddin. A chargesheet was filed against them on January 7, 2023. Ten more people were later arrested for promoting unlawful and anti-national activities of PFI and channelising illegal funds from abroad to its cadres, members and accused persons in the case.

During investigation, NIA found that multiple channels were being operated on popular video platforms by persons suspected to be associated with PFI. These channels were distributing content aimed at inciting communal violence and terror in India. The suspects, having international links, also indulged in propagation of PFI ideology through social media.

THE Lokayukta police raided 57 houses, offices and other premises of 15 government officials across the state on Wednesday and reportedly unearthed assets worth several crores of rupees. Special teams of the Lokayukta police launched the operation early in the morning and continued it till late in the evening.

In Bengaluru city, the teams raided the offices and residences of HJ Ramesh, chief engineer, Bescom Corporate Office, and TV Narayanappa, deputy director, Factories. A team from Bengaluru rural district Lokayukta police raided SD Rangaswamy, secretary, Kittagahalli gram panchayat. Sources said 10 places linked to Ramesh were raided and movable and immovable assets worth around Rs 5.6 crore were unearthed.

"A four-wheeler, a two-wheeler, gold and silver articles, financial investments, imported liquor and household articles valued at Rs 1.4 crore were found. Besides, documents related to a plot at Aerospace Sector of Hitech Defence & Aerospace Park Industrial Area in Devanahalli, another at II Stage, Sompura, Dabaspet, and a house under construction at BEML Layout in Basaveshwaranagar, all estimated at Rs 4.20 crore were found," an official said. A team that raided Narayanappa found household articles worth Rs 22.5 lakh and immovable assets valued at Rs 2.36 crore. "A site at Judicial Layout in Hejjala, a house at Vijayanagar, two houses at KR Puram and 10 acres at Mulbagal in Kolar district were found," the official said.

In Mandya, the sleuths raided five places linked to Pramod Ku-

Lokayukta raid underway at the house of KIADB officer CM Murthy at RT Nagar in Tumakuru on Wednesday | KPN

mar NG, executive engineer, BBMP, South Division. In Mysuru, the sleuths raided chief accounts officer of Mysuru Urban Development Authority N Mutu, assistant executive engineer of MUDA A Nagesh and J Mahesh, superintendent engineer, DC (Development), Mysuru City Corporation.

In Chamarajanagar, raids were conducted at three places linked to M Shivashankara Murthy, senior sub-registrar, Nanjangud. The other officials, who were raided, are Shankara Naik (junior engineer, RDPR Engineering Sub-Division, Shikaripura; K Prashanth (senior engineer, Karnataka Neeravari Nigama Ltd, Upper Tunga Project Zone, Shivamogga; BR Kumar (labour officer, Manipal, Udipi); AM Niranjan (senior geologist, Vikasa Soudha, Bengaluru); Vagish (project engineer, Nirmithi Kendra, Haveri Sub-Division, Ranabennur); Jaranappa M Chincholikar (executive engineer, Karnataka Road Infrastructure Development Ltd, Koppal); and CN Murthy (executive engineer, Karnataka Industrial Area Development Board), Mysuru).

'SOCIETY SHOULDN'T ALLOW SUCH DISGRACE TO DEAD'

CONTINUED FROM PAGE 1

REFERRING to the present case, the court said the accused first murdered the victim and then had sexual intercourse with the dead body. It cannot be held as a sexual or unnatural offence as defined under Sections 375 and 377 of the IPC and also it cannot be termed as rape punishable under Section 376 of the IPC. Utmost, it can be considered as sadism and nec-

rophilia. "It is our experience that newspapers publish reports of people illegally keeping dead bodies on the road or in front of police stations, holding up traffic for hours, in support of their demands for compensation or better amenities. Society should not allow such disgrace to the dead. The state... must take possession of the bodies misused by people, for their decent and dignified funeral," the court said.

share in logistics. This needs to be a core focus area and efforts need to be concentrated on bringing down logistics cost to GDP.

"Along with our aim to become a developed country by

ED heat on Surana Group, ₹124cr assets attached

EXPRESS NEWS SERVICE @ Bengaluru

THE Directorate of Enforcement (ED) has provisionally attached 78 immovable properties and 16 movable properties valued approximately at Rs 124 crore in the possession of various persons and entities linked to the Chennai-based Surana Group of Companies, under the provisions of Prevention of Money Laundering Act (PMLA), 2002 in connection with three cases of bank fraud

involving Rs 3,986 crore of principal outstanding amount to public sector banks.

ED earlier attached properties valued at Rs 124.95 crore (approx). Now, the total attachment in the case stands at Rs 248.98 crore.

The Central agency, which had initiated money laundering investigation on the basis of three FIRs registered by the Central Bureau of Investigation, Bengaluru against Surana Industries Limited & Others, Surana Power Limited &

Others and Surana Corporation Limited & Others, had arrested four persons in July 2022.

"Investigations revealed that these three companies defrauded the banks by floating a web of shell companies where-in they appointed its employees/relatives as directors/proprietors/partners and indulged in paper transactions with them without actual movement of goods, the credit capital of the banks were round tripped/layered to the person-

al accounts of the promoters of the company by projecting the bank funds as unsecured loans from their associate shell companies and same funds were then subsequently infused in the main group companies as part of the promoters contribution to enhance the drawing power limits. Further, some of the diverted funds were used to purchase movable/immovable properties in the names of various benami persons/companies," an official release stated.

'Judge of common man' Justice Veerappa retires, gets fond farewell

YATHIRAJU @ Bengaluru

THE Bar and Bench of the Karnataka High Court on Wednesday bid an affectionate farewell to Justice B Veerappa, who is known as a judge of the common man, on his retirement.

Abolition of the Anti-Corruption Bureau (ACB) established by the then Congress government in the state, while restoring the powers of the Prevention of Corruption Act with the Lokayukta, is a feather in the cap for Justice Veerappa, who headed the Bench that delivered the verdict.

At the farewell address, Chief Justice Prasanna B Varale acknowledged it, and said Justice Veerappa's contribution to the judiciary will always be fondly remembered.

Justice Veerappa, from Nagedanahalli village in Srinivasapura taluk of Kolar, set a new record in the country by taking steps to dispose of the highest number of pre-litigation and pending cases, as chairman of the Karnataka State Legal Services Authority (KSLSA).

Justice Veerappa is instru-

mental in the state government declaring a 50 per cent rebate on traffic fines, which fetched crores of rupees in revenue to the state's exchequer. He delivered many landmark judgments over his tenure of eight years and five months.

Justice Veerappa, who served the judiciary for over three decades as a lawyer, government advocate and judge, said his service has given him immense pleasure and satisfaction. "We judges and lawyers should pledge to remove corruption

and protect the confidence reposed in the judiciary by the public," he said, adding that a major threat is mounting and long-delayed cases.

Noting that legal awareness programmes conducted through KSLSA have given him tremendous satisfaction, he said that in all, 1.08 crore cases were disposed of through six Lok Adalats held during his tenure. "My experience as a judge was most pleasant. I request all my 'judicial soldiers' (officials) to continue to perform effectively," he said.

Efforts on to make Tamil mandatory in schools: Pondy CM

PUDUCHERRY: CM N Rangasamy said the government is making efforts to make Tamil a compulsory subject in government-run CBSE schools in Puducherry. He said a government order will be issued soon after looking into the Karnataka government order. This comes amidst pressure from DMK and other political parties as well as socio organisations like Federation for People's Rights.

Modi, Shah among BJP top guns to address four rallies in Odisha

BHUBANESWAR: With the launch of month-long 'Maha Jansampark Abhijan', the public outreach programme on completion of nine years of PM Modi-led government at Centre, a bevy of top guns of the BJP, including the PM will visit Odisha, to address rallies. With key focus on LS seats the BJP lost in the 2019, BJP has planned to organise four rallies which will be addressed by the PM and Home Minister Amit Shah.

Railways is inching closer to 100 pc electrification of network: VB creator

EXPRESS NEWS SERVICE @ Bengaluru

INDIAN Railways is far ahead than any other country in terms of electrification of its vast rail network and very soon the country will achieve 100 per cent electrification of the rail network, Sudhanshu Mani, innovator of Vande Bharat and former General Manager, Integral Coach Factory, Perambur, Chennai, has said.

Speaking at the one-day 'BCIC Leadership Conclave 2023' with the theme 'India - Its Leadership and the shift under-

way' held here on Wednesday, Mani said Indian Railways is at a springboard for quantum growth now. "It is nearly eight times cleaner and greener than road and air transport. This has been possible only through effective leadership and vision," he added.

Mani touched upon what needs to be done in Railways and said, "While the government recognises the potential of the Railways in India's growth and has boosted investment from Rs50,000 crore to Rs. 2.6 lakh crore, Railways currently hold only 27%

2047, more attention has to be given on how we transport common Indians. Vande Bharat and bullet trains are signs of progress. It is also projected that by 2047, 50 more Indian cities will have metro rail services," Mani added.

Talking about the manufacturing potential of India, Kamal Bali, president and Managing Director, Volvo India Group said, "Manufacturing currently is around 15% of India's GDP and despite concerted efforts from various governments the needle has not moved for the last 25 years. There is

currently an opportunity to triple the manufacturing sector from the current USD 400 billion to USD 1.2 trillion".

For India's economy to progress it is important that the contribution of manufacturing increases, he said. "We cannot become an economic world power in one sector alone. We need contributions from manufacturing, services, and agriculture to progress and compete on a global scale. Three pillars, if addressed correctly, will boost manufacturing in the country," Bali added.

Speed trial on KSR-Jolarpettai section

BENGALURU: Speed trials will be carried out on Thursday on the electrified double line section between KSR Bengaluru and Jolarpettai with trains to be run at 143kmph. n official release said the oscillating monitory system speed trial will be done here to facilitate increasing speed of trains from 110kmph to 130kmph. "The inspection train will run at a speed of 143kmph on the electrified double line. Public are advised to be cautious," stated an official press release.

INDIAN EXPRESS IS NOT AN INDUSTRY. IT IS A MISSION.

— Ramnath Goenka

TEXTBOOK REVISION: K'TAKA STUDENTS STUCK IN IDEOLOGY QUAGMIRE

With a new government in Karnataka, there is a clamour for change, or rather, a return to the pre-2019 era. The primary demands from various socio-religious groups include a re-revision of the school syllabus, withdrawal of the order banning the hijab in educational institutions, a fresh probe into the killings and detentions in the coastal region, besides compensations and jobs for the families of Muslim youth killed during the BJP government's reign. It's an attempt to tilt the scales back to enforce a more secular dispensation.

Caught between these opposing forces are students, who have been hit hardest by the textbook revision and the hijab ban. Both these decisions by the Basavaraj Bommai government provoked strong protests last year, with the syllabus change uniting the then-opposition Congress and the JDS. The parties had rallied behind thinkers, litterateurs and seers who had demanded the scrapping of the changes effected by the Rohith Chakrathirtha committee. The panel had dropped the writings of prominent Kannada writers P Lankesh, A N Rao, Sara Aboobacker and "disrespected" saint Basavanna and Kuvempu. Recently, more than 40 litterateurs met Chief Minister Siddaramaiah to demand the scrapping of the National Education Policy and formation of a State Education Policy, immediate syllabus revision or reinstatement of previous texts, and doing away with the NEET exam. CM Siddaramaiah and Primary Education Minister Madhu Bangarappa have promised that they will take decisions in the interest of all students and will not allow "young minds to be poisoned" or the education sector to be "adulterated". The challenge before them is to bring changes without disturbing the academic year.

The revision was in keeping with the Centre's 'rationalisation' of NCERT textbooks, with the latest change attempting to wipe out parts of Indian history and current events—references to the Gujarat riots have been purged, and content on the Mughal era, castesystem, chapters on Mahatma Gandhi and the freedom struggle have been selectively edited. History is being retold from the Hindutva point of view to influence young minds and shape the political narrative of the future. The over five crore students across India who study NCERT textbooks form the future electorate. While the saffronisation of education may have even been a factor in BJP's defeat, it is regrettable that students are caught in the crossfire between opposing ideologies.

KERALA NEEDS REALISTIC COASTAL MANAGEMENT

The satellite map prepared by the National Centre for Earth Science Studies (NCESS) for the finalisation of the Coastal Zone Management Plan (CZMP) has triggered a controversy in Kerala as it has marked bunds and embankments around Pokkali paddy fields as islands. This goes against the Survey of India data which shows there are 278 islands in Kerala. But as per the NCESS map, there are 2000 islands in the state, out of which 1,074 are in Ernakulam.

The draft CZMP for 10 coastal districts in Kerala is in circulation, inviting objections and suggestions from the public. The map is causing concern among the farmers as it plans to impose buffer zone restrictions around the islands—20 m in urban areas and 50 m in rural areas. The farmers and fishermen allege that the NCESS has identified bunds and embankments around paddy fields as islands, and that this will impose restrictions on development activities.

Another anomaly is in the marking of high-tide lines along the Pokkali fields. The amendment to the first CRZ notification states that if a bund or sluice gate existed before February 19, 1991 (the date of issue of the first CRZ notification), the high-tide line will be restricted to the bund or the sluice gate. This has created a situation where the owners of the paddy fields and lands have to get a certificate from the village officer to prove the existence of the sluice gate from over 30 years ago. With anomalies in the marking of coastal regulatory zones causing concern, the residents in the coastal belt have become quite insecure and have threatened to launch an agitation.

While the protest is brewing, the NCESS, on its part, insists that the high-tide line has been marked keeping in view the projected sea-level rise. That could be the official reason, but looking into the anomalies that have left people feeling unsettled is imperative. Kerala, which is tightly packed between the Arabian Sea in the west and the Western Ghats in the east, has one of the most blessed but fragile ecosystems. While there are no two ways about the importance of protecting it, the survival of human beings who live there also needs to be taken care of. More realistic and sensitive environmental laws would take us a long way in ensuring both goals.

QUICK TAKE

RELIGIOUS FREEDOM

Recent observations of the Kerala High Court on the limits on one's religious freedom may shape future debates. The case concerns a person insisting ritualistic animal/bird sacrifices are part of his religious practice. The court sided with rational thought, saying the right to religion is subject to public order and health and that such practices are unhealthy and unscientific enough to be prevented, even if done in religion's name. It is thought-provoking that it rejected the contention that animal sacrifice is an essential and integral part of the respondent's religious belief and practice and cannot be interfered with even if it is a nuisance to others.

Writing in the US journal *Foreign Affairs* ('America's bad bet on India'), American political analyst Ashley Tellis describes a mismatch of mutual expectations in the India-US relationship. It merits examination from an Indian perspective. The bilateral relationship was given new impetus by the two governments in the early 2000s. It was catalysed by (among other interactions) an intensive dialogue of National Security Advisors Brajesh Mishra and Condoleezza Rice, which conceptualised a strategic partnership in nuclear energy, space and defence, facilitated by dismantling the decades-old technology denial regimes in India.

The US saw attractive opportunities in India's economic liberalisation, defence imports and nuclear energy programmes. India was keen to shed Cold War straitjackets and benefit from trade, investment, technology and defence partnerships with the superpower.

There was a larger strategic backdrop. The US saw a strong, democratic India as a counterfoil in Asia to a rising China that could soon challenge its dominance. India welcomed the prospect of US support in restraining inimical Chinese actions in its neighbourhood and beyond.

These interests inspired the India-US nuclear deal by which the US almost single-handedly rearranged the global non-proliferation architecture that it had carefully built over decades, to permit civil nuclear cooperation with India.

For much of this century, American political attention was focused more on Europe, Russia and West Asia than on the strategic challenge from China. The economic interests of Wall Street, Silicon Valley and Hollywood in China prevailed over geopolitical considerations. Hence, as External Affairs Minister Jaishankar put it, America's trumpet "sounded increasingly uncertain" in the Asia-Pacific.

The US decisively altered course during the Trump administration, and took China head-on, with aggressive tariffs, a combative Indo-Pacific posture and technology denials. The Biden administration has now ratcheted up the pressure a few notches, raising the spectre of a military confrontation over Taiwan.

With mounting US-China tensions and India-China relations hitting rock bottom as well, Tellis believes that Washington has moved from the Bush-Obama ambition of strengthening India against China's dominance, to the "more expansive notion" that the US could induce India to join a US military coalition to contain China. He makes the obvious point that this is un-

While wanting US technological and security support to facilitate its rise, India does not acknowledge reciprocal obligations, even on a common challenge like China

INDIA-US RELATIONS: RESCUING REALITY FROM EXPECTATIONS

P S RAGHAVAN

Distinguished Fellow, Vivekananda International Foundation, and a former diplomat

SOUMYADIP SINHA

likely, as long as China has the capacity to retaliate by threatening India's security "in significant ways".

Yet, this mismatch of expectations appears to reinforce a US belief (as Tellis tells it) that even while wanting US technological and security support to facilitate its rise, India does not acknowledge any reciprocal obligations, even on a common challenge like China. It is important for the bilateral relationship that this perception be rectified.

There are obvious asymmetries of capacities and interests in the India-US relationship. For India, it is the most consequential relationship in the breadth and depth of its bilateral and strategic content. As a superpower, the US has important interests beyond India—in the South Asian subcontinent and beyond.

The asymmetry extends to the nature of the China challenge. India has issues on the border, with its support for Pakistan and unfriendly international actions. For the US, while there are larger issues, the most immediate threat is to its dominance in the Western Pacific.

Beyond the issues feeding confrontation, the US National Security Strategy identifies the need for engaging with China on climate change, public health, international terrorism and a nuclear North Korea. This means that confrontation has to be tempered with tactical accommodation in various situations. India has to recognise this reality.

Defence cooperation has been a major success of the India-US partnership. But its main component is US military sales, whereas India wants technology transfers to eventually manufacture its major weapon

'EMOTIONAL LITERACY' WILL ENSURE A HAPPY NEXT GENERATION

India is experiencing a surge in mental health concerns among children and adolescents, especially since the Covid-19 pandemic. Prior to the pandemic, 50 million children in India were estimated to be struggling with mental health issues (UNICEF 2021). 43% of students reported mood changes as per the National Council of Educational Research and Training's (NCERT) 2022 survey, highlighting the extent of the mental health crisis among children.

Interventions in mental health encompass prevention, treatment, rehabilitation and reintegration, but are challenged by limited resources, low availability of trained counsellors, and less awareness and stigma associated with mental health, which lead to reluctance in seeking treatment.

National policies like National Education Policy (NEP) and the School Health and Wellness Programme under Ayushman Bharat prioritise mental health interventions; the impact of these is still unfolding. Following CBSE guidelines, most private schools have appointed a counsellor, but the staggering number and remoteness of government schools makes it difficult to appoint a trained counsellor in every public school, thereby posing a large unmet need. To counter this, the best approach is one which encourages healthy behaviours and prevents the very onset of a mental disorder, namely prevention and promotion.

The ambit of preventive mental health covers the emotional, behavioural and social well-being of a child. WHO recognises Social Emotional Learning (SEL) and life skills as important ways of preventing mental health issues. Efforts are underway by state governments, central bodies and non-governmental organisations (NGOs) to promote mental health and SEL interventions in schools for strengthening coping abilities of children, enabling them to manage stress and preventing negative health behaviours.

Towards this, the governments of Delhi and Uttarakhand have implemented the "Happiness Curriculum" in schools (Nursery-Class 8) involving meditation for self-awareness and resilience, value education for character building, and mental exercises to reduce anxiety, depression and intolerance. To prioritise whole child development, build children's abilities to cope with life situations and collaborate with others, the government of Jharkhand introduced the "Harsh Johar curriculum" (Class 1-12) as

part of its Schools of Excellence initiative. Building on SEL and other educational initiatives, Compassion Centre, Emory University, US—launched the Social, Emotional and Ethical Learning (SEE Learning®) curriculum for school (Primary to Class 12). Through compassion-based practices, SEE Learning builds resilience, attention, self-awareness, self-regulation and relationship skills that enhance children's ability to care for themselves and others.

Teachers must prioritise their own well-being to effectively deliver curricula and create a safe space for children

Piramal Foundation implements the SEE Learning curriculum in Jhunjhunu, Rajasthan, helps teachers and principals become SEE Learning ambassadors, coaches and facilitators, and enables integration of SEE Learning in the state education agenda. In Jammu and Kashmir, it has partnered with the Union Territory to create a cadre of 150+ SEE Learning facilitators to impact schools across 40 districts.

Khushi, a Class 9 government school student in Jhunjhunu, learned to control her anger by regulating her emotions using various "help now strategies" under a SEE Learning activity. She also learned to practice forgiveness and build relationships.

Strengthening emotional resilience of children calls for building teacher capacity to understand the importance of preventive methods and the active participation of parents and community to build a safe cocoon

for children and nurture their emotional resilience. Teachers must prioritise their own well-being to effectively deliver curricula and create a safe space for children. For this, they need to engage in reflective experiential exercises that foster a strong teacher-student relationship, preparing them for their role as facilitators.

Emotionally low after taking disciplinary action against a student, Ritu, a teacher from Jhunjhunu, Rajasthan, began practicing grounding and resourcing activities in SEE Learning which helped her identify her own emotions and restore a positive environment in the classroom.

Addressing mental health requires different competencies, which can be supported by a cadre of master facilitators in each district to build a capacity of headmasters, teachers and government officials for implementing SEE Learning across schools and to help children and parents connect to services at Health and Wellness Centres (HWCs).

Parents and family members directly influence behaviours of children, especially when living in unsafe environments with inherited vulnerabilities and facing discrimination. Sensitising parents about mental health through school activities such as PTMs (Parent Teacher Meetings), sessions on mindfulness and SEE Learning can make them aware of their role in supporting their child's well-being.

Engaging parents through digital platforms such as WhatsApp groups have proven to be useful for disseminating resources, thereby enabling parents to create a safe support system for their children.

Addressing mental health is key to building a happy and peaceful future generation. The escalating mental health concerns among children necessitates innovative approaches such as SEE Learning in classrooms, facilitated by trained and emotionally resilient teachers. What is also needed is a supportive and nurturing community of parents, caregivers, etc., to foster emotional resilience, create a safe environment, and ensure the well-being of children.

systems. Over the years, a number of initiatives have been launched for exchange of advanced military technologies and coproduction of defence systems. The US administration's hesitation to clear transfers (possibly on apprehensions of leakage to US adversaries) has been reinforced by private companies' reluctance to part with intellectual property. For them, India is a relatively small, commercially unviable defence market.

The recently launched India-US initiative on Critical and Emerging Technology (iCET) seeks to engage both governments, their businesses and research entities in exchange for cutting-edge civil and defence technologies. The two major pluses of iCET are that it involves private companies and that it signals high-level political commitment: it is led by the two National Security Advisers. Its success depends on US willingness to permit transfer of sensitive technologies, as well as Indian willingness to make it commercially worthwhile for US entities and politically worthwhile for the US administration. An integrated approach, including an accommodative investment regime, is needed.

An asymmetry of expectations derives also from the different prisms through which the relationship is viewed. In the US, the interagency process, coordinated by the National Security Council, receives inputs from the sectors of foreign policy, defence, intelligence, industry and legislative processes. It sometimes throws up reactions that complicate mutual interests. We saw this during our negotiations in the early 2000's; Condoleezza Rice describes some incidents in her memoirs.

Equally perspectives in India depend on the departmental or sectoral interests involved. A whole-of-government approach would appreciate the larger strategic picture, find tradeoffs between compromises and gains, and reconcile cross-sectoral concerns and interests.

The bottom line is that not only India's interests, but also US strategic interests, should be served by an India that becomes strong enough to withstand Chinese assertiveness and presumptive hegemony in the region. Apart from other political and economic interests, US engagement with India aims (as publicly stated) to dilute Russia's influence on it and to obviate a Russia-China-India axis. From India's perspective, geography and current geopolitical realities preclude a military coalition, but many strands of convergent interests compel a strong strategic partnership. The challenge is to rescue the India-US relationship from exaggerated expectations.

Jadeja's talent

Congrats to CSK for lifting the IPL trophy. But the management failed to honour Ravindra Jadeja, who was instrumental in winning the trophy. Had he not scored those crucial 10 runs in the last 2 balls, GT would have won. **Leela Ramanath, Mysuru**

Sports ministry

It is heartless of powers-that-be to keep their eyes closed to the agitating wrestlers. Women's participation in sports depends on their safety in the sports ground. Trainers often get too close and exploit the young girls. I fail to understand how the sports ministry has not taken any initiatives to end the agitation. **SS Rajagopalan, Chennai**

Political colour

The wrestlers' agitation turned awkward as expected. They could have opted for a better method by sending their delegation to the Prime Minister. The outcome would have surely been better. But misguided by their mentors, they chose to sit at Jantar Mantar and gave a political colour to their struggle. **TS Rao, Bengaluru**

Throwing medals

Wrestlers' throwing their medals into the river amounts to showing disrespect to their game. The authorities may have done injustice to them but it was not the game that did it. The wrestlers have already earned the sympathy of the entire nation and that should not be spoiled by their thoughtless actions. **AK Vasudevan, email**

Banking system

In our country, loan defaulting is not a crime. A smart entrepreneur can borrow any amount, and the lender is not assured of full repayment because there's no collateral security. That's why a lender who is forced to show growth plus lower NPAs resorts to con acts (*RBI's strong caution on governance gaps in banks - May 31*). There's no solution unless the lending policy is changed lock, stock, and barrel. Is our Parliament listening? **P Mangalachandran, Kannur**

Communal harmony

This is with reference to the *The Kerala Story: Not a case for total ban* (May 31). This explains the action to be taken by the government and CBFC in circumstances where a speech or an artistic work causes communal harmony. But who has to re-examine the movie if no action is taken by the concerned authorities? As mentioned in the conclusion, the people have to respond or act wisely rather than legally. **Prasanna Kumar K, Mannar**

₹1L cr scheme for grain storage

Cabinet okays plans to raise storage capacity by 700 lakh tonne in the cooperative sector

AMIT MUKHERJEE @ New Delhi

IN a bid to strengthen food security and prevent distress sell by farmers due to lack of storage, the Union Cabinet on Wednesday approved a scheme worth ₹1 lakh crore to increase the food grain storage capacity by 700 lakh tonne in the cooperative sector.

The scheme, which is being envisaged at the world's "largest grain storage plan in the cooperative sector", aims to converge various schemes of the ministry of agriculture and farmers' welfare, ministry of consumer affairs, food and public distribution, and ministry of food processing industries.

The capacity addition to store 700 lakh tonne will be completed in a time-frame of five-year period, said Union Minister Anurag Singh Thakur while announcing the decision taken by the Union Cabinet in New Delhi on Wednesday.

The step comes in the wake of the country at present having a storage capacity of 1,450 lakh tonne which allows storage of only 47 per cent of its grains produced in the country.

Under the existing storage infrastructure a significant portion of the produce gets wasted every year or is sold off by farmers in distress due to lack of storage facilities.

Rollout of world's largest scheme

₹1 lakh crore
Investment for raising
storage capacity

700 lakh tonne
Increased capacity in
cooperative sector

1,450 lakh tonne
India's present
capacity

2,000 tonne
Each block will get a
godown of this
capacity

47%
of grains
produced can
be stored at
present

Thakur said that the programme will start "with an expenditure of around ₹1 lakh crore. As per the scheme design, each block will get a godown of 2,000 tonne capacity.

To facilitate the project an Inter-Ministerial Committee (IMC) will be constituted under the Chairmanship of Minister of Cooperation Amit Shah. Minister of Agriculture and Farmers Welfare, Minister of Consumer Affairs, Food and Public Distribution, Minister of Food Processing Industries and the respective secretaries will be members.

The IMC will be empowered to modify guidelines and implementation methodologies of the schemes of the respec-

tive ministries as and when a need arises, within the approved outlays and prescribed goals that would facilitate creation of infrastructure such as godowns and storage facilities for Agriculture and Allied purposes at selected 'viable' Primary Agricultural Credit Societies (PACS).

The plan would be implemented by utilising the available outlays provided under the identified schemes of the respective ministries in the Union Budget.

As per the plan, the National Level Coordination Committee will be formed in the next seven days and the implementation guidelines will be issued within 15 days of the

Committee to be ready within next seven days

The plan would be implemented by utilising the available outlays under the identified schemes of the respective ministries in the Union Budget. The National Level Coordination Committee will be formed by next week and the implementation guidelines will be issued within 15 days of the Cabinet approval. Also, a portal for the linkage of PACS with Central and State Governments will be rolled out within 45 days of the Cabinet approval and the implementation of the proposal will start within 45 days of the decision.

Cabinet approval.

Also, a portal for the linkage of PACS with Central and State Governments will be rolled out within 45 days of the Cabinet approval and the implementation of the proposal will start within 45 days of the decision.

With more than 1,00,000 PACs in the country with a member base of more than 13 crore farmers the initiative has been undertaken to set up decentralized storage capacity at the level of PACS along with other agri infrastructure, which would not only strengthen the food security of the country, but would also enable PACS to transform themselves into vibrant economic entities, Thakur said.

₹2,000 note: Delhi HC junks a plea, reserves order on another

JAISON WILSON @ New Delhi

IN the aftermath of the RBI's decision to withdraw currency notes of ₹2,000 denomination from circulation, two pleas were moved in the Delhi High Court. One petition argued that the Reserve Bank of India (RBI) does not have independent power to do so and it is only acting so under the directives of the Central government.

Another plea, moved by a BJP leader, was against the RBI and State Bank of India permitting exchange of ₹2,000 currency notes without producing any identity proof and requisition slip. It expressed the apprehension of "black money hoarded by the separatists, terrorists, maoists, drug smugglers, mining mafias and corrupt people". Dismissing this petition, the high court, said the government call is purely a policy decision and courts should not sit as an appellate authority over the decision taken by the government.

The high court, further stated that the "purpose of issuing ₹2,000 note denominations has been achieved".

"...its purpose which was to meet the currency requirement of the economy in an expeditious manner in November, 2016 when all ₹500 and ₹1,000 denomination banknotes were declared to be not legal tender

The Reserve Bank of India had announced withdrawal of ₹2,000 currency notes from circulation on May 19 this year. The existing notes in circulation can either be deposited in bank accounts or exchanged by September 30 | FILE PHOTO

and in order to meet the situation at that point of time, the Government took a decision to bring banknotes of ₹2,000 denomination to ensure adequate supply of money to meet the day-to-day requirements of the people," the court order added.

Another plea strongly opposed the RBIs May 19 decision of withdrawing ₹2,000 banknotes from circulation. The court has reserved its verdict on this plea.

The plea filed by Rajneesh Bhaskar Gupta termed the decision as "arbitrary and unreasonable", arguing that RBI does not have independent power

under RBI Act 1934 to direct non issuance or discontinuation of issue of bank notes of any denominational value. The RBI's power is restricted only to issue and re-issue bank notes under Section 22 and 27 of the RBI Act, but the period for issuing such notes is fixed by the Central Government, the petitioner argued.

Therefore, all powers of supplying the bank notes, its period of validation and withdrawal from circulation in public, vests only with the Central government. The RBI is only acting under the directives of the Central Government, it was submitted.

Display of anti-tobacco warning now must for OTT platforms

KAVITA BAJELI-DATT @ New Delhi

THE Health Ministry on Wednesday announced that all over-the-top (OTT) streaming platforms will now have to display anti-tobacco warnings as seen in movies screened in theatres and TV programmes.

The announcement came on World No Tobacco Day as the ministry issued a gazette notification amending the rules under the Cigarettes and Other Tobacco Products Act, 2004. The Union health ministry took the decision following discussions with the Information and Broadcasting (I&B) ministry and other stakeholders. "If the publisher of online content fails to comply with new rules, the Union Health Ministry and the Ministry of Information and Broadcasting will take strict action," the ministry said in a statement.

According to the notification, publishers of online curated content displaying tobacco products or their use will be required to display anti-tobacco health spots each of a minimum of 30 seconds at the beginning and middle of the programme. They shall also be required to exhibit an anti-to-

bacco health warning as a prominent static message at the bottom of the screen when tobacco products or their use are shown during the programme.

According to the World Health Organisation (WHO), tobacco is one of the major causes of death and disease in India and accounts for nearly 1.35 million deaths every year. India is also the second largest consumer and producer of tobacco.

Union Health Minister Mansukh Mandaviya, who released the OTT guidelines for the regulation of online depiction of Tobacco Products in online cu-

Despite ban, gutkha readily available

Despite a ban in 2012, gutkha and other chewable tobacco products are readily available, as 1 in 6 Indian families have one or more members consuming these tobacco products, which poses serious health risks, especially for oral cancer, the most common cancer in the country, as per the latest survey. It confirmed the Lancet article that, unlike most other countries, smokeless tobacco exceeds smoked tobacco use in India.

rated content, said that these guidelines will go a long way to dissuade people from tobacco consumption. Expressing concern over rising tobacco consumption among the young, the minister appealed to people to break free from the shackles of tobacco and embrace a healthier lifestyle.

"It is time to create wide awareness among youth and the nation regarding the seriously debilitating and harmful effects of tobacco consumption," the minister said and mooted the idea to start a Lok Bhagidari campaign in mission mode through Jan Abhiyaan.

MAYANK SINGH @ New Delhi

CALLING the BrahMos cruise missile the country's most lethal combat asset, Indian Air Force Chief on Wednesday called for more combat squadrons with these BrahMos-modified aircraft. "What we are looking at is the next-generation BrahMos or its smaller version that can be fitted to the smaller platforms like MiG-29, Mirage 2000, or even the LCA. This is an area where we need to really focus," said Air Chief VR Chaudhari during the 'BrahMos User Meet' in Delhi on Wednesday.

BrahMos has been produced jointly by India and Russia since 1998. "We need to develop a smaller weapon with the same reach and lethality. This could be taken as one of the challenges," said the IAF Chief. He said as the situation unfolded on the northern borders three years ago, we realised that a potent weapon can be used very effectively for land attacks. "We, therefore, equipped more squadrons with these BrahMos-modified aircraft. Today, we have BrahMos-modified aircraft in almost all squadrons across the IAF," Chaudhari said.

Army Chief General Manoj Pande said the missile has enabled the armed forces in multi-

Brahmos Missile being launched from INS Kolkata off the coast of Goa | FILE PHOTO

ple ways. "Due to our legacy issues of unsettled borders and related security challenges, the possession of strategic deter-

rence instruments in our case is essential. The three Services are the users of the BrahMos missile system. The missiles

How India raised BrahMos firepower

The range of the missile is 290 km, with a speed of 2.8 mach (almost thrice the speed of sound), till the time India was not part of the Missile Technology Control Regime (MTCR). India became an MTCR member in 2016 and extended its range to 450 km.

Cracks in Oppn unity as Cong MLA joins Didi

PREETHA NAIR @ New Delhi

EVEN as several Opposition parties are gearing up for their first big meeting on June 12 in Patna, the rift between Congress and Trinamool (TMC) has come out in the open after the lone Congress MLA in the West Bengal assembly switched over to TMC.

Congress took potshots at TMC saying poaching is not designed to strengthen Opposition unity and such acts only serve BJP's objectives. Mamata Banerjee-led party asked the former to do a soul-searching and rein in its regional leaders. In a rebuttal to Congress's charges, TMC leader and Rajya Sabha MP Sushmita Dev told this newspaper that the party should rein in regional leaders if they want opposition unity.

"The ball is in the court of the Congress. It depends on how the Congress will manage the aspirations of the leaders at the state level. If they actually want Opposition unity, they should rein in regional leaders," said Dev in a veiled reference to Congress state chief Adhir Ranjan Chowdhury who is in a bitter battle with the ruling party. Earlier on May 29,

AICC president Mallikarjun Kharge

Congress MLA in the West Bengal assembly Bayron Biswas joined TMC in the presence of party general secretary Abhishek Banerjee.

Congress general secretary Jairam Ramesh said such poaching happened earlier in Goa, Meghalaya, Tripura and other states and it is not designed to strengthen Opposition unity.

"Three months after he was elected as a Congress MLA in a historic victory Bayron Biswas was lured away by the TMC in West Bengal. This is a complete betrayal of the mandate of the

West Bengal CM Mamata Banerjee

people of the Sagardighi Assembly constituency," said Ramesh. Responding to Ramesh, Dev said, "My humble request to the tall leaders of Congress is to take a closer look at state politics to see who is harming who. The problem with leaders of the Congress party in WB is that they don't talk in the same voice as the central leaders," she said.

Congress alleges that as part of its expansion plans in Goa, Meghalaya, and Tripura, TMC had recruited many Congress leaders into its fold during the

Assembly elections held in those states. This has been a major bone of contention between both parties, with Congress accusing the TMC of scuttling the Opposition unity by eating into its vote bank.

The spar comes soon after JD (U) leader Nitish Kumar's call to Congress president Mallikarjun Kharge to forge Opposition unity.

Congress MP Manickam Tagore too cautioned TMC that its efforts to destroy Congress won't work. "How can Congress work with a party which is working the BJP way? When will those who advise Congress to have TMC as a friend stop this madness from TMC? How can any relationship work if you destroy your friend's life? TMC making efforts to destroy Congress won't work," he said.

Dev said though TMC extended unconditional support to Rahul Gandhi's disqualification, the party did not return such favours. "Without even thinking twice, Mamata supported Congress when Rahul was disqualified. However, when ED came after TMC leaders, WB Congress leaders said that Mamata Banerjee deserves it."

India strives for partnership with Singapore for vocational education

KAVITA BAJELI-DATT @ New Delhi

INDIA is exploring ways to partner with Singapore for seamless integration of skill and vocational education, starting from the school level, said Education Minister Dharmendra Pradhan Wednesday.

Pradhan, on a three-day visit to Singapore, met his counterpart Wednesday and discussed ways to strengthen bilateral cooperation further and deepen engagements in education and skill development.

The minister met Minister for Education Chan Chun Sing and held "fruitful conversations on further strengthening the bilateral cooperation and deepening engagements in all areas of education and skill development," said a statement issued by the ministry.

He also said the ministry would explore ways in which Singapore can partner with India to seamlessly integrate skilling and vocational education starting from the school level itself. "Both the ministers agreed to broaden the contours of the existing partnership

through institutional mechanisms, particularly towards building capacities of teachers and trainers, incorporating future skills into education and skilling ecosystem as well as explore engagement with special schools, sport schools," the statement said.

Stressing that the 21st century will be India's century, he said that world-class global universities, like Nanyang Technological University (NTU), Singapore, and Indian universities, must collaborate and deepen their engagements to create new models to inspire the 21st century," he added.

"India and Singapore share strong historical, cultural, and civilisational links. Our friend-

ship today is rooted in reciprocity, mutual trust, and respect. Scaling up partnerships in knowledge, skills, and frontier areas will add new dimensions to our long-standing friendship," said Pradhan, who also visited various schools, higher and skilling institutions, including Nanyang Technological University, Spectra Secondary School, Skills Future, Institute of Technical Education Singapore, during his three-day visit.

Singapore, which has attended three G20 Education Working Group Meetings, will be participating in the forthcoming G20 Education Ministers' Meeting in Pune in June also.

"Natural allies, like India and Singapore, remain committed to working together for mutual and global prosperity," he said.

"Insights gained today will add value to our efforts of transforming India's skill ecosystem, creating a future-ready workforce, and harnessing the full potential of our young demography to drive national progress," Pradhan said.

2 days after truce in Delhi, Pilot sticks to his demands in Raj

RAJESH ASNANI @ Jaipur

TWO days after a reconciliation meeting at Congress chief Mallikarjun Kharge's house, Sachin Pilot's attitude towards his demands is unchanged. Pilot has made it clear that there will be no compromise on the three demands that he placed on the conclusion of his padyatra on May 15.

The three demands are: Students who suffered during the competitive exam on account of paper leak should be compensated with financial assistance, the Rajasthan Public Service Commission (RPSC) should be dissolved and reoriented to secure the future of the youth and a high-level probe instituted on alleged graft cases during former chief minister Vasundhara Raj's tenure.

Pilot reminded the Gehlot government of the ultimatum, saying that the commitments made to the youth on a public

platform are not hot air.

It was expected that the party leadership's efforts in Delhi to bring about peace in the Rajasthan Congress will begin to manifest in the statements and body language of CM Ashok Gehlot and former Deputy CM Sachin Pilot. During his one-day visit to his constituency Tonk on Wednesday, Pilot seemed to lack the aggressive attitude he showed in the past few months.

"I want to say there was loot during the BJP rule. It is about getting justice for the youth. It is not possible to compromise on that. I hope that what I said on May 15, the government will act on them soon. I am waiting," he said.

On Monday, Gehlot and Pilot were brought together in the presence of Kharge, Rahul Gandhi and party general secretary KC Venugopal. However, no public announcement was made on a specific formula.

Sachin Pilot

300 stranded in landslide near China border in U'khand

NARENDRA SETHI @ Dehradun

A 100-metre road has been washed away due to heavy landslides along the Lipulekh-Ta-waghat border road connecting the China border as well as rocks on the road. Around 300 passengers are stranded in Dharchula and Gunji areas due to disruption of connectivity on the route. Administrative officials engaged in clearing the road have expressed hope that traffic will be restored by Friday morning.

Dharchula Deputy Superintendent of Police Narendra Pant told this daily, "Border Road Organisation (BRO), police, PWD and other departments are working relentlessly to open the blocked road and hope that the route will be cleared by Thursday evening or latest Friday morning".

According to sources, "A vehicle was damaged due to debris falling on a dumper near Guhiya Valley on Jakho-Sankri Motor way in Uttarkashi. No casualty was reported." State Meteorological Department issued a message asking passengers travelling to hilly areas to travel after getting information about the weather forecast.

Top honours: Partially paralysed Gujarat girl scores A-1 grade in 12th

DILIP SINGH KSHATRIYA @ Ahmedabad

The Gujarat Board of Secondary and Higher Secondary Education (GSEB) on Wednesday announced Class 12 general stream results. The highlight of the results was **Krishna Kalyanbhai Barad**, a farmer's daughter from Rajkot, received an A-1 grade with a 99.77% despite suffering numerous challenges in life.

Two years ago, Krishna travelled to Vapi, southern Gujarat, to compete in the judo competition. On her way back, her vehicle met with an accident in Bagodara of Ahmedabad district, which left her legs paralysed. That was like putting an end to her dream of competing at the national level.

"My father is a farmer. Two years ago, we travelled to Vapi for a judo competition with other kids from my school. After the accident, I took a year's off before retaking the exam this year. The score of 99.77 PR was the objective I kept for myself," she said.

Krishna's challenges were obvious. On the one hand, she was dealing with her physical condition, and on the other, she had the grades in mind.

In Ajmer, Modi attacks Cong on graft

Says party loots every citizen — poor, tribals, minorities, women & the disabled — all equally

RAJESH ASNANI @ Jaipur

Prime Minister Narendra Modi hit out at the Congress during a rally organised in Ajmer on Wednesday as a part of the BJP's 'Jan Sampark Abhiyan' on the completion of nine years of the party rule at the Centre. Addressing the rally, he recounted major achievements of his government and targeted the Congress for alleged corruption in pre-2014 years.

"Congress does not discriminate against anyone when it comes to looting. The party loots every citizen of the country — the poor, exploited, tribal communities, minorities, women, and the disabled — all equally," he said. "That party receives an 85% commission in development works," said the PM.

Referring to the statement of former Prime Minister Rajiv Gandhi, PM Modi said: "If the Congress government sends 100 paise for the people's welfare, then 85 paise are used for corruption. The Congress is the party that gets an 85% commission in every scheme."

The PM emphasised that there has never been a shortage of money for development works in the country. However, he highlighted the importance

PM Narendra Modi at a public meeting in Ajmer on Wednesday | PTI

'IN 5 YEARS, RAJ HAS GOT ONLY INSTABILITY'

The PM indirectly referred to the tussle between CM Ashok Gehlot and Sachin Pilot in the poll-bound state. "In 2014, the country formed a stable government at the Centre. In Rajasthan, five years back you gave a mandate and what has Rajasthan got in return -- instability and anarchy," he said.

of utilising the funds sent by the government for development works. According to him, the corrupt system "created by the Congress" during its rule was draining the resources of the country and hindering its development.

The PM also targeted the Opposition, including the Con-

gress, for opposing the inauguration of the new Parliament building. "India has got a new Parliament House, but the Congress has demolished this moment of India's pride for its selfish ends. The Congress has insulted the hard work of 60,000 workers, as well as the sentiments and aspirations of the

Maha renames Ahmednagar as Ahilyabai Holkar district

SUDHIR SURYAWANSHI @ Mumbai

MAHARASHTRA chief minister Eknath Shinde on Wednesday announced the state renamed Ahmednagar district after Maratha empire queen Ahilyabai Holkar. Now, Ahmednagar will be called 'Ahilyanagar'.

The development came after leaders from the ruling party — BJP MLC Gopichand Padalkar — had been demanding for the same. Padalkar in February this year demanded the name to be changed following the renaming of Aurangabad.

Chief Minister Eknath Shinde and Deputy Chief Minister Devendra Fadnis earlier changed the name of Aurangabad and Osmanabad after consistent demands. "Osmanabad has been renamed Dharashiv while Aurangabad is Sambhaji Nagar. Following that people are also demanding of changing the name of Ahmednagar. So the government did it," he said.

Malwa queen Ahilyabai Holkar was born to a Marathi family in Chaindi village of the district in 1725 and was later crowned as the Queen of Malwa kingdom.

Bengal job scene: Over 35k applicants for 445 contractual positions

PRANAB MONDAL @ Kolkata

MOHAMMAD Akher (name changed) dreamt of teaching students in a school after he cleared school service examination (SSC) five years ago. However, he is now among more than 35,000 applicants who queued up for the one-year contractual government job that includes catching snakes and cutting grass with scissors, instead of chalk and duster.

Reflecting the sorry state of job opportunity in Bengal, more than 35,000 applicants, mostly with higher education qualification, filled up form for the post of 445 Bana Sahayak, a temporary recruitment by the forest department. Though the department mentioned Class VIII pass as eligibility, thousands of graduate and postgraduate candidates applied for the job which offers ₹10,000 per month. Many applicants chose to take SSC examination as they are yet to receive appointment letters as a school teacher.

Youths who applied for the temporary job will be recruited in Nadia, Murshidabad, Malda, North and South Dinajpur, Jalpaiguri and

Many post-graduates among applicants

Though the department mentioned Class VIII pass as eligibility, thousands of graduate and postgraduate candidates applied for the job which offers ₹10,000 per month.

Alipurduar districts.

"Examinations for government jobs have come to a halt. In many cases, getting job without having political connection is not possible. Besides, even after clearing exams, receiving appointment letters take many years. I have no other option than to apply for this one-year contractual job," said Akher, a postgraduate.

In the government notification, it has been clearly mentioned: "The post is purely temporary and contractual. The incumbent will not have any claim to any service benefits provided to permanent employees of Government of West Bengal. The engagement shall be for one year initially. The incumbent may be continued to be engaged on annual basis on recommendation of the Head of the Office where engaged."

Cong, BJP vie to win tribal support in Bastar

EIAZ KAISER @ Raipur

Tribal-dominated Bastar in south Chhattisgarh apparently remains a real challenge for the opposition BJP that does not have a single legislator in the 12 assembly seats in the region.

The BJP has consequently taken lead, with the party's Chhattisgarh in-charge Om Mathur starting his whirlwind four-day tour of Bastar by chopper to boost party leaders and cadres. With barely five months remaining for the Assembly polls, he will cover all seven districts and review the party's position in all 12 seats of Bastar.

The myth prevailing is that the gateway to power in Chhattisgarh is via tribal-dominated Bastar. With 11 reserved for the Scheduled Tribe, the ruling Congress too is vying for the support of adivasis to remain with the party.

"When I can visit Bastar in the span of one month, why can't the party office bearers of the district and core committee members dedicate themselves towards work and extensive public interaction at the booth levels of their respective areas. My main focus at present is to strengthen the organisation

C'GARH'S GATEWAY TO POWER

According to a myth, the gateway to power in Chhattisgarh is via tribal-dominated Bastar

Both BJP and Congress strive for tribals' support in the region

Opposition BJP that does not have a single legislator in the 12 assembly seats in the region

With 11 reserved for the Scheduled Tribe, the ruling Congress too is vying for the support of adivasis to remain with the party

Women voters in Bastar have little over 51 percent outnumbered men

and ensure BJP forms a government with majority," said Mathur who was previously among the chief strategists for the polls in Gujarat and UP.

Besides the Centre's achievement under PM Modi in nine years, the BJP is enumerating various development initiatives and progress witnessed in the state during the earlier Ram Singh regime. The saffron party alleged there is an increase in Maoist terror and rise in religious conversion under

the Congress rule.

The Congress too has plans to organise a zonal meet of senior party leaders in Bastar on June 2. The occasion will be attended by the AICC in-charge for Chhattisgarh Kumari Selja, chief minister Bhupesh Baghel, PCC president Mohand Markam, Speaker Charandas Mahant, all present and former MPs and MLAs, among others. The ruling party will strive to maintain the gain secured across Bastar in 2018 polls to

continue.

"Our development politics have befitted and empowered tribal communities," said Baghel countering BJP's allegations.

The Congress though has informally launched its poll campaign in Bastar by holding a mega show attended by the party general secretary Priyanka Gandhi. She addressed a public rally in Jagdalpur on April 13 earlier this year.

Bastar is a region where the women voters with little over 51% outnumber men.

In several pockets of the conflict zone, the outlawed CPI (Maoist) also had the presence for a past over three decades.

Owing to the Maoists' perceived threat, the Election Commission (EC) has always been holding the Chhattisgarh Assembly polls to 90-member House in two phases with the insurgency-hit constituencies being covered in the first.

Since the last three Assembly polls, there has been an increase in the voters' turn-out by 15-20% in those seats believed to have strong presence of rebels. The voting in these areas were always scheduled early at 7 am and culminated at 3 pm.

Local bodies' term ending soon amid uncertainty over Assembly elections

FAYAZ WANI @ Srinagar

EVEN as the uncertainty over the Assembly polls in Jammu and Kashmir continues, the tenure of panchayats and urban local bodies (ULBs) in the Union Territory is coming to an end by the end of this year and it remains to be seen whether the polls to local bodies will be held before or after the Assembly polls.

The five-year term of urban local bodies is ending in November this year. While the term of Srinagar Municipal Corporation will end on November 5, the Jammu Municipal Corporation's term is expiring on November 14.

The five-year term of municipal councils and committees will also come to end in October-November this year. Polls to urban local bodies in J&K were last held in October 2018 during Governor's rule. The NC and PDP had boycotted the ULB polls in J&K, citing threat to J&K's special status.

Ten months after holding of ULB polls, the Centre scrapped J&K's special status and bifurcated the J&K state into two

Local body polls were last held in J&K in '18

Polls to urban local bodies in J&K were last held in October 2018 during Governor's rule. The NC and PDP had boycotted the ULB polls in J&K, citing threat to J&K's special status. Ten months after ULB polls, the Centre scrapped J&K's special status

Union Territories. The five-year term of panchayats is also coming to an end in December this year. The panchayat polls were held in November-December 2018 on a non-party basis.

With no clarity on holding of Assembly polls in J&K, the question mark also looms over holding of panchayat and ULB polls in the UT.

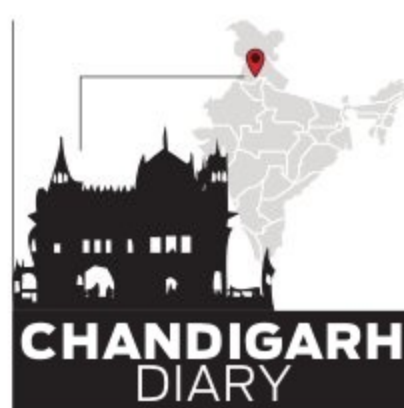

However, All J&K Panchayat

Conference chairman Shafiq Mir said the panchayat polls are most likely to be held in December this year.

"After the extension of 73rd Constitutional amendment in the Panchayat Raj Act to J&K, it is mandatory for the government to hold the panchayat polls after the expiry of the term of the panchayats. There is a constitutional binding on the government to hold panchayat polls after the expiry of the term of panchayats," he said.

Mir, however, said there is confusion as the second and term tiers of panchayat (BDCs and DDCs) tenure is not ending this year. "The BDC's tenure will end in 2024 and DDC's term will end in November-December 2025".

"The Panchayat Raj Act says that the government has to complete the election exercise of all three-tier in 40 days. There is a possibility that the BDCs and DDCs may also be dissolved for holding the simultaneous panchayat polls," he said. Political observers said there is a probability that the government may go for panchayat polls followed by ULB polls to feel the mood of the people.

Rahul shares video of his ride with truck drivers

Former Congress President Rahul Gandhi shared a video of his overnight yatra with truck drivers and the conversations he had with them while travelling on the Delhi-Chandigarh Highway. Donning his trademark white T-shirt, he undertook the journey last Monday from Delhi to Chandigarh in Prem Rajpoot's truck from Firozabad, Uttar Pradesh to listen to the problems faced by truck drivers. In the video, he is seen sitting inside a truck, travelling with a driver and speaking to other drivers at a dhaba. He met and spoke with a group of truck drivers at a dhaba in Murthal on NH-44, and rode a truck from there to Chandigarh.

Mann visits Bathinda after Raj's water demand

Last week Punjab Chief Minister Bhagwant Mann was in Bathinda to meet a delegation of farmers from Rajasthan led Rashtriya Loktantrik Party (RLP) chief and Member of Parliament from Nagaur Hanuman Beniwal as a high level meeting was held on the water sharing issue as Rajasthan has been demanding water from Punjab. Mann was to stay for only three hours on May 21 for a short period but he spent the night there as he was accompanied by top officials of the state government.

Cong minister's picture used without consent

Punjab Leader of Opposition and senior congress leader Partap Singh Bajwa's picture was used in an advertisement on treating impotence on Facebook. Bajwa stated it was a cheap tactic either by his political opponents or some individuals acting at their behest to defame him. He alleged in his complaint to the Chandigarh Police that the advertiser was fully aware that he had never taken any such kind of treatment and also knew he was well known. This post has been widely circulated on the social media. A case has been registered by the police in the cyber cell and investigations are going on.

Sebi seeks more info from FPIs

High-risk foreign investors will have to give granular details of ownership, economic interest

SACHIN KUMAR @ Mumbai

CAPITAL market regulator Securities and Exchange Board of India (Sebi) on Monday proposed to enhance measures for foreign portfolio investors (FPIs) to prevent violation of minimum public shareholding (MPS) requirements.

In a consultation paper, the regulator proposed FPIs with assets under management (AUM) of over ₹25,000 crore in Indian equities, or over 50% of equity AUM in a single group will have to make additional disclosures. The proposal has its genesis in the Adani stocks issue where Sebi could not identify the beneficial owners of some foreign portfolio investments in the group stocks since the existing regulations are lax in identifying the true owners of many investments.

"For now, it is proposed that high-risk FPIs, holding over 50% of their equity asset under management in a single corporate group would be required to comply with the requirements for additional disclosures," noted the consultation paper.

"Such FPIs shall be required to provide granular data of all entities with any ownership, economic interest, or control rights on a full look - through basis, up to the level of all natural persons and/ or public retail funds or large public listed entities," it added.

Sebi has suggested categorising FPIs based on risk. While government and related entities like central banks and sovereign wealth funds have been placed under the low-risk category, pension funds and public retail funds have been clubbed in the category of moderate risk. Further, all other FPIs have been put in the high-risk category. As per Sebi, some FPIs have been observed to concentrate a substantial portion of their equity portfolio in a single investee firm or group. Sebi estimates about 6% of total FPI equity AUM, and less than 1% of India total equity market capitalisation may come under the category of

Tightening the noose

- FPIs with AUM of over ₹25,000 crore in Indian equities, or over 50% of equity AUM in a single group will have to make additional disclosures
- Failure to provide such additional granular disclosures wherever required will render the FPI registration invalid
- Proposal has its genesis in Adani stocks issue where Sebi couldn't identify beneficial owners of some FPI investments
- Sebi noted some FPIs have been observed to concentrate substantial portion of their equity portfolio in a single investee company or group
- Existing regulations are lax in identifying the true owners of many investments
- Sebi has suggested categorising FPIs based on risk

high-risk FPIs. "Based on the data as of March 31, 2023, and on certain assumptions, we estimate FPI AUM of about ₹2.6 lakh crore may be identified as high-risk FPIs that meet either of the 50% group concentration or the ₹25,000 crore fund size thresholds," note the paper.

Failure to provide such disclosures wherever required will render FPI registration invalid. Such FPIs would be required to wind down within six months. "We believe it (Sebi's proposals) will not significantly impact the trend of FII inflows as legitimate qualified foreign investors like sovereigns to pension funds will be classified as low to moderate risk category," said Vinod Nair, head of research at Geojit Financial Services.

Auditor flags three Adani Ports transactions over lack of disclosure

ARSHAD KHAN @ New Delhi

DELOITTE HASKINS & SELLS LLP, the auditor of Adani Ports & Special Economic Zone (AP-SEZ), country's largest private port operator, has raised red flags on the three transactions of the company and issued a qualified opinion on the company's accounts over lack of disclosure.

The auditor stated that as per data provided to them, they could not confirm whether the parties involved in the transactions were indeed unrelated as no independent external examination has been done to prove the same.

This is one of the first times when a leading audit firm has raised flags on the financial dealings of an Adani Group firm. The dealings of the port-to-power conglomerate were recently questioned by US-based short-seller Hindenburg Research.

"The (Adani) group didn't consider it necessary to have an independent external examination of these allegations (by Hindenburg) because of their evaluation and the ongoing investigation by the Sebi as directed by the Supreme Court. The evaluation performed by the group does not constitute sufficient appropriate audit evidence for the purpose of our audit," noted Deloitte in the auditors' report on the audit of Q4FY23 and FY23. Among the three transactions, one involves Adani Ports selling Myanmar Port to a relatively unknown firm named Solar Energy Ltd, incorporated in tax haven Anguilla.

"The audit committee of the company as well as the company is of the view that an independent examination at this stage will not be appropriate given ongoing probe by Sebi and the expert panel appointed by the Supreme Court. Deloitte's qualification this year, as we summarise it, is owing to pending conclusion of these investigations," said Adani Spokesperson.

Adani Ports earlier this month had announced selling its Myanmar port to Solar Energy Ltd. The sale price was revised from ₹2,015 crore to just ₹247 crore and an impairment charge was taken. The other transaction in question includes Adani Group signing an engineering contract with a subsidiary of a company identified in the Hindenburg report from whom ₹3,750 crore was recoverable as of March 31, 2023.

Deloitte has said there have been financial transactions, including of equity, made with parties identified in the Hindenburg report. Adani Group told Deloitte these are not related parties.

Auditor picks some loopholes

Auditor stated that as per data provided to them, they could not confirm whether the parties involved in the transactions were unrelated as no independent external examination has been done to prove the same

Adani Group cites Sebi probe as reason

Adani Port in a statement said the audit committee of the company as well as the company is of the view that an independent examination at this stage will not be appropriate given the ongoing investigations by Sebi

Govt manages to meet fiscal deficit target of 6.4% for FY23

MONIKA YADAV @ New Delhi

The government has managed to stick to the 6.4% fiscal deficit target for FY23, official data released on Wednesday showed.

This is better than 6.71% in FY22. The Centre aims to bring down fiscal deficit to 5.9% of the GDP in FY24, finance minister Nirmala Sitharaman had announced during her Budget speech in February.

As per the data of Controller General of Accounts (CGA), fiscal deficit in absolute numbers stood at ₹17.33 lakh crore (provisional), slightly lower than what was projected in the Revised Estimates (RE) in the Budget.

"The Government of India was able to restrict its FY2023 fiscal deficit at ₹17.3 lakh crore, a shade below the the FY2023 RE, with higher than estimated revenue receipts and a small undershooting in revenue expenditure, offsetting the disinvestment miss and a healthier than expected capex," Aditi Nayar, Chief Economist & Head Research and Outreach, ICRA said.

The net tax revenues grew at 15.2% to ₹20.97 lakh crore, while non-tax revenues contracted by 17.8% to ₹2.86 lakh crore in FY23. Revenue expenditure increased to 7.8% while capital expenditure surged by 24.2%. According to

Net tax revenue increases 15.2% to 21L cr in FY23

Net tax revenues grew at 15.2% to ₹20.97 lakh crore, while non-tax revenues contracted by 17.8% to ₹2.86 lakh crore in FY23. Revenue expenditure increased to 7.8% while capital expenditure surged by 24.2%.

the Controller General of Accounts data, government received ₹24.56 lakh crore (101% of corresponding RE 2022-23 of total receipts) during FY23.

Meanwhile, the Centre transferred nearly ₹9.48 lakh crore to state governments as part of the devolution of taxes. This amount is higher than the FY22 figure by ₹50,015 crore.

The Centre incurred a total expenditure of ₹41.89 lakh crore, which is 100% of corresponding RE 2022-23.

Out of this, ₹34.52 lakh crore belonged to the revenue account and ₹7.36 lakh crore was charged on the capital account. Besides this, ₹9.28 lakh crore was on account of interest payments and ₹5.31 lakh crore towards major subsidies.

Core sector growth slows to 3.5% in April

ENS ECONOMIC BUREAU @ New Delhi

Growth of core sector, which includes eight infrastructure industries, slowed to a six-month low at 3.5% in April. The decline in production of natural gas and refinery products for the first time in five months and fall in crude oil output for the 11th consecutive month led to the slump.

Contraction in the electricity sector continued for the second month in April. The data released by the industry department on Wednesday showed that the output of fertilisers witnessed the biggest jump - 23.5% in April; growth was also reported in the output of steel (12.1%), cement (11.6%), and coal (9%).

The growth rate of the index of eight core industries (ICI) during 2022-23 was 7.7% (provisional), the ministry said in a statement.

Core industries measures the output of infrastructure sectors such as coal, crude oil, natural gas, refinery products, fertilisers, steel, cement, and electricity.

Clients' fund misuse: Sebi cancels Karvy Stock Broking registration

ENS ECONOMIC BUREAU @ New Delhi

THE Securities and Exchange Board of India (Sebi), on Wednesday, cancelled Karvy Stock Broking's certificate of registration for mis-utilising clients' funds and securities.

Cancelling the registration, Sebi said Karvy was engaged in

transfer of funds from clients' accounts to its own accounts, which were subsequently transferred to group firms associated with the brokerage house. It had raised funds by pledging clients' securities without their consent. "Irrespective of cancellation of Certificate of Registration, the noticee shall be liable for anything done or omitted to

be done as a stock broker and continue to be responsible for payment of outstanding fees and dues, if payable to Sebi," said the Sebi order.

Govt reopens semiconductor incentive scheme; Vedanta-Foxconn can reapply

ENS ECONOMIC BUREAU @ New Delhi

THE government on Wednesday invited fresh applications for setting up Semiconductor Fabs and Display Fabs units in the country from June 1, 2023.

A fiscal incentive of 50% of the project cost is available to applicants for setting up of Semiconductor Fabs and Display Fabs units of any node (including mature nodes). Companies can apply for the scheme till De-

cember 2024. The application will be received by India Semiconductor Mission (ISM).

"Semiconductor Mission is announcing that it will start accepting and considering new applications for fabs from new and existing applicants," tweeted Rajeev Chandrasekhar, Minister of State, Ministry of Electronics and IT.

He said the first window for more expensive 28 nanometer fabs was kept open for 45 days only in January 2022 and re-

50% Incentive of project cost available to applicants

A fiscal incentive of 50% of the project cost is available to applicants for setting up of Semiconductor Fabs and Display Fabs units of any node (including mature nodes). Companies can apply for the scheme till December 2024.

ceived three applications that were evaluated by ISM and its advisory group. "Strategy now is encouraging mature nodes of >40nm - current and new players may apply afresh in various nodes that they have technology for. It is expected

some existing applicants will reapply and fresh investors will also apply," he said in a tweet.

Last year, a Vedanta and Foxconn joint venture had announced investment of ₹1,54,000 lakh crore in Gujarat to set up a semiconductor fab. The government, reportedly, has rejected Vedanta's joint venture request to get incentives. As per the government, the JV is unable to meet requirements set by the government to get funding, and the firms lack a technology part-

ner and a manufacturing-grade technology licence for construction of 28 nanometer chips.

The reopening of the application process will give Vedanta and other big companies such as GlobalFoundries, Intel, TSMC, and Samsung to set up operations in the country.

The government launched the Semicon India Programme in December 2021, allocating ₹76,000 crore for development of semiconductor and display manufacturing ecosystem.

Govt to sell 3% stake in Coal India via offer-for-sale

ENS ECONOMIC BUREAU @ New Delhi

COAL INDIA LIMITED, country's largest coal producer, will sell its 18.49 crore shares, representing 3% of the entire shareholding through an offer-for-sale (OFS).

The size of OFS is about ₹4,000 crore. The company kept the floor price for the OFS at ₹225 per share, and this is a 6.72% discount in comparison with Wednesday's closing price of ₹241.2 for Coal India shares.

According to the exchange filing, the government will offload more than 9.24 crore shares of Coal India, representing 1.5% stake, under the base offer size.

If it gets oversubscription, an additional 9.24 crore shares will be offered.

"If the oversubscription option is exercised, the government will collectively offload 3% equity shares of Coal India," said the company in an exchange filing.

The company said OFS will open for non-retail investors on June 1. And the retail investors and non-retail investors, who choose to carry forward their bids, can participate in the issue on June 2.

The employees will be eligible to apply for equity shares up to 5,00,000. The allotment to an employee will be up to 2,00,000 and in the event of under-subscription in the employee portion, the total allotment to an employee shall not exceed 5,00,000.

India biggest refined fuel supplier to Europe in April

RAKESH KUMAR @ New Delhi

INDIA became the largest supplier of refined fuel to Europe in April 2023 as the country exported nearly 406 kbd (thousand barrels per day) to European countries in the month, as per energy cargo tracker Vortexa.

Besides India, Russia is the second-biggest exporter of refined oil to Europe as it exported 365 kbd, followed by Saudi Arabia 352 kbd, Kuwait 211 kbd and the USA 181 kbd in April 2023. Private oil firms exported all refined products as state-owned firms drew a blank. "India exported about 1.38 mbd of refined products (incl. both clean and dirty products) in May 2023. The top destination countries it exported to are Australia, the UAE and Singapore. Reliance, from its Jamnagar refineries, is the top exporter of refined crude," said Serena

Huang, an analyst at Vortexa.

Europe's dependence on India for fuel supply increased manifold after the Russia-Ukraine war in February 2022. Following the war, European countries which were largely dependent on imports from Russia, reduced their reliance on Russian oil and gas. The western countries announced several sanctions on the export of Russian crude. However, Russia has diversified its supply, and India and China became the largest importer of its crude. India emerged as a major market for Russia in FY23, as the latter offered steep price discounts on crude.

As per Vortexa, India imported Russian crude 1678 kbd in April and 1,960 kbd in May 2023. From among its traditional suppliers, India imported 839 kbd from Iraq, 560 kbd from Saudi Arabia and 203 kbd from UAE.

Dixon partners Xiaomi to make, export phones

RAKESH KUMAR @ New Delhi

CONTRACT manufacturer Dixon Technologies (India) announced on Wednesday that it has partnered with Chinese tech giant Xiaomi to manufacture and export Xiaomi's mobile phones.

The partnership will also explore enhancing the component ecosystem in the country through the wholly-owned subsidiaries of Dixon. "The proposed association will be formalised subject to execution of the definitive agreements," said Dixon in an exchange filing.

ing. Atul B Lall, Vice Chairman and managing director, Dixon Technologies (India), said the Indian EMS (electronic manufacturing services) industry has embarked on an upward

journey. "Now, with most of the global mobile phone manufacturers and their supply chain partners investing in manufacturing, the Indian EMS industry is well-positioned to unlock its true potential in the coming years," he added.

He further said Xiaomi, which has built a strong brand equity over the years in the country is known for its high quality and efficiency is reckoned as a strong force in the smart mobile phones market in India and people across the nations have strong faith in their products.

"We are ecstatic and encouraged by the trust they have reposed on Dixon for the proposed association. This partnership will leverage Dixon's manufacturing excellence, superior execution track record and Xiaomi's expertise & leadership in the Indian business ecosystem and it represents a major milestone in Indian Governments "Make in India" initiative," said Lall.

Experts believe this move is a way to avail of production linked incentive (PLI) scheme, which was launched in April 2021 for mobile manufacturing.

Market snaps 4-day rally on profit taking

ENS ECONOMIC BUREAU @ New Delhi

DOMESTIC equity market on Monday snapped its four-day winning streak with benchmark BSE Sensex and NSE Nifty closing lower by 0.5% due to profit-taking in banking, energy and metal stocks amid weak global cues.

The 30-share index Sensex fell 346.89 points or 0.55% to settle at 62,622.24. During the day, it fell 568.11 points or 0.905 to 62,401. The NSE Nifty declined 99.45 points or 0.53% to end at 18,534.40.

"Profit-taking was overdue

for sometime and investors offloaded their holdings in metals, realty and energy stocks on the back of weak Asian and European market cues. Traders also decided to keep a low profile ahead of the likely decision on the US debt agreement over raising the debt ceiling, as the outcome would provide some hint to the markets over the near-term direction," said Shrikant

Chouhan, Head of Equity Research (Retail), Kotak Securities. Ajit Mishra, SVP - Technical Research, Religare Broking noted that while global headwinds, especially from the US

markets, are causing intermediate volatility, the positional up trend is still intact.

In the four-day rally to Tuesday, Sensex and Nifty had advanced about 2% each.

From Sensex pack, Axis Bank, SBI, Reliance Industries, HDFC, HDFC Bank, NTPC, Tata Steel and UltraTech Cement were the major laggards on Wednesday. Among the indices, energy fell 1.20%, metal (1.16%), oil & gas (1.04%), utilities (1%) and financial services (0.68%). In the coming session, the market will react to India's GDP numbers which grew to 6.1% in the January-March quarter, according to the official data.

SHUSHILA REQUESTS MIRABAI TO LEND SUPPORT

The violence in the state has affected the lives of scores. For athletes like Shushila, who went to the Olympics in Tokyo, it has meant completely stopping her programme to serve the people of her state, to help them recover. It's not a surprise that sporting centres have been shut down and athletes sent back home...

FIROZ MIRZA @Chennai

JUDOKA Likmabam Shushila Devi, a two-time CWG silver medallist, was at her home in Heingang Mayai Leikai, Imphal East (Manipur) when her aunt's family shifted there from the neighbouring village. The family comprising six members including three children had to relocate as their ancestral home was torched leaving them with no option.

"They are safe here but the incident has left them shellshocked. As Imphal is safe, displaced people are preferring it for relocation. As many as 400-500 people are staying in a relief camp in our village. We have given them shelter in a community hall," Shushila told this daily.

Not in the long list sent for the upcoming Asian Games, Shushila was rehabilitating in her village when violence broke out. With several restrictions imposed to handle the situation, Shushila stopped going for rehabilitation and training. Instead, she decided to help people in whatever way she could. "We (villagers) give foodgrains to people staying in the camp. We have also arranged a cook for them. But we are worried as things need to improve soon otherwise it will go out of control."

In order to contain violence, several roads have been cut off but the move has aggravated people's problems. Prices of essential items have soared. "Every-

A general view shows the remains of burnt houses in Kangpokpi village, some 43km from Imphal in Manipur. (Inset) Judoka Likmabam Shushila Devi | AFP/TWITTER

thing has become expensive. Take for example petrol and diesel. Their prices have skyrocketed. Add to it the heat, it's not making life easier for us. People here in the camp have not bathed for days. There are pregnant women and newborns. It's difficult to look after them with so many problems cropping up every single day.

We cannot seek help or tell our situation to the rest of the country as there is no internet connectivity for a month now."

She along with a few other athletes from the state also met Union Home Minister Amit Shah on Tuesday. "A delegation comprising national award winners met Home Minister yesterday (Tuesday). We have submitted a memorandum to him demanding to restore normalcy. He has assured us to resolve the issue. But the government needs to act swiftly otherwise it will be too late. We have also told the Home Minis-

ter that we will return awards if the situation doesn't improve," she said.

Shushila also got in touch with the 2020 Tokyo Olympic silver medallist weightlifter Mirabai Chanu, seeking her support. "I called Mirabai as well. I requested her to voice our concerns as she is in a situation to do so. I don't think people in other parts of the country know about our ordeal. If Mirabai apprises them of our situation, they will know. Her voice can reach even to the Prime Minister," the champion judoka signed off.

Will be hard for budding athletes to restart, says boxing coach Ibomcha

INDRANEEL DAS @Chennai

IT'S an ordeal they are hoping will not last for long. Every day they think this would end tomorrow but it has turned into night without an end. There is strife and death. Sports is the last thing in their mind now when homes are burnt and people are killed.

A delegate of sportspersons including Arjuna Awardees like Kunjarani Devi, L Sarita Devi and Bem Bem Devi met the Union home minister Amit Shah on Tuesday and submitted a memorandum.

One of the most experienced boxing coaches in the region, Ibomcha Singh, said it's a day-to-day existence for them. "We are somewhat fine in Manipur but my home in Kakchin is affected," he said. "It's very sad." What is hurting him most is the closure of centres, both for boxing and other sports at the Khuman Lampak Stadium premises.

"It's been almost a month now, all the students are back home and the hostel is shut and there is no training," said Ibomcha, who had coached stars like 1998 Asian Games gold medalist late Dingko Singh, London Olympic medallist and multi-

For them to come back will be a struggle. After seeing so much of distress they will have to overcome trauma. Missing so many days of training will put them behind

Ibomcha Singh, boxing coach

ple world champion Mary Kom, former world champion Sarita Devi and 2009 Asian Championships champion Suranjy Singh. He is distraught that the children had to break their training schedule during peak season and go home.

"In boxing or any other sport, it is not easy if we give a break for more than a day or two," said Ibomcha, who trains boxers at the Khuman Lampak Stadium centre. "For them to come back will be a struggle. After seeing so much of distress they will have to overcome mental trauma. It will be hard. And missing so many days of training will put them behind the rest of the country."

He hoped situation gets back to normal. "But things are really bad and just hope everything gets back to normal soon," he said, adding, they have spoken to Mirabai Chanu to lend her support.

Thoiba Singh, Sarita's husband, said things in and around their house suddenly turned unsafe and they had to shift to a relative's house. He said Sarita is busy with her police duties. "Situation is not very good and we are tense," he said. "Sarita has been very busy with her work in police." Sarita has been appealing for peace and normalcy.

Bem Bem, who went to meet the home minister on Tuesday, said: "He assured us that everything that can be done from the central government's part, they will do."

"I get very emotional thinking about the situation," she said. "Everybody has been affected, homes have been burnt. A lot of old people and children are in relief camps. I want things to go back to normal soon. As a sportsperson also, it is saddening because currently no sporting activity is going on in the state."

Inputs from Vishnu Prasad in Bengaluru

PV Sindhu lost 8-21, 21-18, 18-21 to Canada's Michelle Li in opening round

Shuttler Kiran stuns Shi but Sindhu ousted

PTI @Bangkok

INDIA'S Kiran George scripted a stunning straight-game win over World No. 9 Shi Yuqi of China but double Olympic medallist PV Sindhu made an opening round exit from the Thailand Open Super 500 tournament here on Wednesday. Ashmita Chaliha and Saina Nehwal also made winning starts to their campaign, while Lakshya Sen and the No. 4 pair of Satwiksairaj Rankireddy and Chirag Shetty also progressed to the pre-quarterfinals.

On a day when Kidambi Srikanth and B Sai Praneeth also failed to cross the opening hurdle, 2022 Odisha Open winner Kiran, a product of the Prakash Padukone academy, notched up a 21-18, 22-20 win over third seed Shi, a 2018 Worlds silver medallist. Kiran will take on China's Weng Hong Yang next.

His academy-mate Lakshya also dug deep to eke out a hard-fought 21-23, 21-15, 21-15 win over Chinese Taipei's Wang Tzu Wei. Commonwealth Games champion and top seeds Satwik and Chirag too had to work hard to outwit the Danish combination of Rasmus Kjaer and Frederik Sogaard 21-13, 18-21, 21-17 in a thrilling match.

Sindhu, however, faltered in the opening round, going down fighting 8-21, 21-18, 18-21 to Canada's Michelle Li in 62-minute match.

In other matches, Ashmita, who came through the qualifiers, beat compatriot Malvika Bansod 17-21, 14-21, while London Olympics bronze medallist Saina defeated Canada's Wen Yu Zhang 21-13 21-7.

Ashmita will next face Rio Olympic gold medallist Carolina Marin.

Skipper Stokes could play as all-rounder in Ashes

AFP @London

ENGLAND captain Ben Stokes said on Wednesday he believes he has given himself the "best opportunity" to bowl against Australia in this season's Ashes series.

The all-rounder has been managing a longstanding left knee problem which flared up during February's tour of New Zealand.

Stokes's recent stint in the Indian Premier League yielded just two appearances for the Chennai Super Kings, where the paceman bowled only one over for 18 runs.

But speaking on the eve of England's Test against Ireland at Lord's, the 31-year-old was optimistic he could feature with the ball again when the five-match Ashes contest starts on June 16.

"The knee is in much better place than it was in Wellington," Stokes told reporters.

"I've been over in India for the IPL and these last eight or nine weeks I know I have got myself in a position where I can't say I regret anything."

"I have got myself into a place where I feel like in a 2019, 2020 space in terms of my own body and fitness. I have definitely given myself the best opportunity (to bowl this summer)."

"We know what it is (the problem) and now it is about managing it."

Stokes was one of the stand-out performers the last time the Ashes were staged in England four years ago, his superb unbeaten century guiding the hosts to an incredible one-wicket win at Headingley during a series that ended 2-2.

EXPRESS READ

ICC in Pakistan to seek assurances for WC

KARACHI: The International Cricket Council (ICC) chairman and CEO are in Lahore to seek guarantees from the PCB that it will not push for implementing a hybrid model for its matches in the ODI World Cup in India later this year. ICC chairman Greg Barclay and CEO Geoff Allardice have specifically come to Lahore to get some assurances from the PCB on the national team's participation in the World Cup in October-November.

Dhoni to consult experts on knee injury

NEW DELHI: MS Dhoni will be seeking expert opinion from sports orthopedics in Mumbai on the state of his dodgy left knee before taking a call on his treatment, CEO Kasi Viswanathan said. "Yes, it is true that Dhoni will be taking medical advice for his left knee injury and accordingly decide. If surgery is advised, it can only be ascertained after reports come out, it will be completely his call," Viswanathan said.

Pujara could provide key insights with his knowledge: Gavaskar

SUNIL Gavaskar believes that Cheteshwar Pujara could provide valuable insights to his Indian teammates ahead of the World Test Championship final against Australia, having played extensively in the Championship over the last few seasons. With Pujara's knowledge and captaincy experience (at Sussex), his inputs could prove invaluable, especially against Australian batter Steve Smith, who is also a part of his county side.

"The fact that he is been around will mean that he will have also seen how the pitch has been behaving at The Oval."

"He might not have played at The Oval, he might be in Sussex not too far away from London but he will have kept an eye on what is happening and his inputs will be invaluable as far as the batting unit is concerned or even as far as the captaincy is concerned," Gavaskar told Star Sports. "He will have the captain's ear as far as the Oval pitch is concerned and don't forget he has also been captaining the team, so he definitely will have worked out quite a few strategies seeing that Smith is his teammate at the moment."

India skipper Rohit Sharma in the nets on Wednesday ahead of the final | ICC VIA TWITTER

Focus on building workload for bowlers: Mhambrey

The Indian team is focussing on building workload for the bowlers, who had an extensive run in the IPL. In the bowling department, while the likes of Mohammed Siraj, Shardul Thakur, Akshar Patel, Jaydev Unadkat and Umesh Yadav were part of the first batch to travel to England, pace spearhead Mohammad Shami's departure was delayed as the IPL final went

into overtime. Virat Kohli was also among the players who left in the first batch along with the coaching staff. The team is expected to have a few practice sessions at the Arundel Castle Cricket Club in Sussex ahead of the big final. "The preparation has been good so far. I think we pushed them a little bit. Just adding a little bit of workload for the bowlers, just kind of preparing them for the Test," said India's bowling coach Paras Mhambrey in a video released by the BCCI.

WTC Watch

India-like conditions at Oval: Aussie batter Smith

Australia's batting mainstay Steve Smith is expecting batting friendly conditions at the Oval but feels they could face India-like conditions as the game goes on. The venue offers one of the best batting conditions in the UK with true pace and bounce. India are expected to play their frontline spinners R Ashwin and Ravindra Jadeja in their bid to make the most of the conditions. "The Oval can present itself with some spin occasionally, particularly as the game wears on so we could face some sort of similarities to what we had in India at certain stages of the game. Lightning fast outfield, the square goes whole way across the ground so it is a nice place to bat when you get in and has some decent pace and bounce for an English surface," Smith told cricket.com.au.

'Strength of Navy SEAL' needed to win French Open: Tsitsipasa

AFP @Paris

STEFANOS Tsitsipas believes he'll need to have the mental and physical strength of an elite, battle-hardened special forces commando to break through to a maiden Grand Slam title.

The Greek World No. 5 came agonisingly close to winning the French Open in 2021 when he surrendered a two-sets lead

to lose in five to Novak Djokovic.

It's a memory which still haunts him, especially after losing to the Serbian superstar again in January in the final of the Australian Open.

"There are a few guys that can play good under pressure, especially in big, tight moments, and you have to have the mental strength of a Navy SEAL to pull

Stefanos Tsitsipas reacts after a point against Spain's Roberto Carballes Baena | AFP

it through," said Tsitsipas. Tsitsipas made the French Open last 32 for the fourth year in succession on Wednesday with a 6-3, 7-6 (4), 6-2 victory over Spain's Roberto Carballes Baena.

As well as making two Grand Slam finals, the 24-year-old has fallen at the semi-finals on four occasions — twice to bitter rival Daniil Medvedev (2020 and 2021 Australian Open) and to Djokovic (2020 French Open) and Rafael Nadal (2019 Australian Open). In his quest, he has resorted to consult-

ing Rafael's Nadal autobiography because he "kind of shows you that anyone can do it."

"You have to have the physique of a marathon runner, the lungs of a marathon runner. You have to have the power of a football player," added Tsitsipas when asked what constitutes a Grand Slam champion.

"There are so many little components that you have to link up in order to make this unbelievable player where you allow yourself to be unstoppable." Tsitsipas racked up his 50th Grand Slam win in the first round against Jiri Vesely while Wednesday's victory against Carballes Baena was his 20th at Roland Garros. "I get excited when I see personal records being kind of set and broken," he added.

Another of Tsitsipas's ambitions is to deliver a first Davis Cup title to Greece.

However, he is his country's only player in the world's top 500 so if an unlikely triumph in the prestigious team event is ever to be secured, it would require Greece to have a reliable doubles pairing.

Meanwhile, Carlos Alcaraz overcame a second set blip to defeat Japan's Taro Daniel. The Spanish star came through 6-1, 3-6, 6-1, 6-2 against his 112th-ranked opponent and will face Canada's Denis Shapovalov for a place in the fourth round.

Select results (singles): Rd 2: Fabio Fognini bt Jason Kubler 6-4, 7-6 (5), 6-2. Stefanos Tsitsipas bt Roberto Carballes Baena 6-3, 7-6 (4), 6-2. **Women:** Elise Mertens bt Camila Osorio 6-3, 7-6 (3). Jessica Pegula bt Camila Giorgi (ITA) 6-2 Retd.

DAY'S DIARY

EIC dissolved

On June 1, 1874, the East India Company was dissolved. It was founded in the 1600s as The English East India Company

LOOTING INDIA

With a massive private army and the backing of the British government, the EIC looted India from 1757 until government stepped in and took over EIC possessions in 1858

DOWNFALL

The company's demise was engineered by Britain itself, as factories in the north of England turned the country into an industrial powerhouse

REBELLION

In 1857, the Indians rose in revolt against high-handed and oppressive Company rule – particularly its insensitivity towards their religions

The beast in the beauty segment

PG 3

In the '80s, I was wrapped in an aluminium foil and a black leatherette mini, and was hanging out of the then newly constructed glass elevator of the hotel Le Meridien. All this as part of a music video where I was singing Tina Turner's *We Don't Need Another Hero* for Doordarshan (DD) Kendra, Bangalore. It was done before music videos in India were a thing and continued to play on DD for quite some time

— Kirtana Kumar, thespian and author

Tina Turner photographed by Phil Ramey, Associated Press

LEAVING ON SILENT WINGS

After the passing of the legendary Tina Turner, long-time Bengalureans speak of her key influence in shaping the city's rock 'n' roll culture

TUNIR BISWAS

BEFORE fans preached Madonna like a prayer, before Britney Spears was in the zone, before Lady Gaga had her bad romance, and before Beyoncé ran the world, there was Tina Turner... forging the path for the future to follow. When the quintessential 'Queen of Rock 'n' Roll' breathed her last on May 24 at the age of 83, she left a world bereaved and mournful. The Garden City happens to be among the many lands that rocked to Turner's music and long-time Bengalureans feel Turner's absence on the rock 'n' roll charts, a little more than others.

Thespian and author Kirtana Kumar (57) refers to Bengaluru of the '80s as the 'loosey-goosey' Bangalore Cantonment that birthed many mavericks and other souls willing to walk down roads less taken. During that 'maverick' era in 1985, a 19-year-old Kumar starred in an ode to Tina Turner for Doordarshan (DD). "It was all Kevin Oliver's idea and conceptualisation. He wrapped me in aluminium foil and a black leatherette mini, had me hanging out of the then newly constructed glass elevator of the hotel Le Meridien and shot a music video of me

singing Turner's *We Don't Need Another Hero* for Doordarshan Kendra, Bangalore. It was done so long ago...before music videos in India were a thing. I just had a blast! It continued to play on DD for some years because I'd have friends and strangers tell me about it," recalls Kumar.

Pervin Varma (58), a musician and professional working in the development sector, discovered Turner when she released her comeback solo record *Private Dancer* in 1984. "I had always grown up seeing her and Ike Turner as a duo, but I got into her music after *Private Dancer* dropped. Experiencing her sheer artistry and musicianship, and the fact that she came back in such a big fashion at the age of 44, which was unheard of. We were in college in those days and there was a thriving live music scene. Back then, Bangalore was one of the few places to have all-women electric bands who were playing fully rock music. It was quite radical. Artists like Turner and Pat Benatar inspired women to realise that they could rock too," shares Varma. Interestingly, when *Private Dancer* dropped, 44-year-old Turner became the oldest female solo artist to top the Billboard Hot 100 list.

Music producer and mentor Richard Andrew (47) was heartbroken to find out about Turner's passing last week. "Tina

has been one of my inspirations. She led a hard life especially her abusive relationship with her former husband Ike. So, for her to shine despite all the constraints and overcome all obstacles, I took that personally. It was heartbreaking to hear of her passing because she and Michael Jackson are the biggest influences in my career and even in some of my students' careers. I have put together so many events for women who rock, and Tina has always been a popular feature, even to this day. I have taught so many students who love performing her songs," he says.

Turner's influence is not just restricted to the 'mavericks' (in Kumar's words) of the city but the future generations as well. One of Andrew's mentees, Tanaya Shanker (17) sang a cover of Turner's hit *The Best*, as a tribute to the late singer a couple of years ago. "People continue to be her fan. Singing one of her songs on stage was definitely a technically challenging experience. I tried a lot to emulate her closely, but you can never compare to her," says Shanker.

When you Google Tina Turner on the search bar, Google responds by asking 'Are you looking for: simply the best'. It may be an error on their part but also...maybe not. Maybe we were looking for the best and maybe that's why we looked her up.

Pastels, florals and light fabrics are all a part of this celebrity fashion designer's summer-spring collection

SUMMERY DELIGHT

MONIKA MONALISA

If you have a thing for light-weight fabric, celebrity fashion designer Reshma Kunhi has a new collection for you. Her Summer Spring 2023 collection is all about pastels, florals and light fabrics. Considering the summer heat, the collection is designed with cotton, linen, and flowy fabrics.

These Indo-western outfits fit any Indian occasions or day events. "With the city experiencing scorching heat, everybody wants to wear light colours. Irrespective of the occasion, people prefer going for lighter fabrics, especially in white. We have come up with an Indo-western fusion collection, which works for an ethnic setting. It looks modern and chic, yet it has that ethnicity in it," says Kunhi.

When in doubt, go for fusion prints, suggests Kunhi. "We work a lot with pure Chanderi and mul cotton. We have collections in silk blend cotton as well. It is light since it is cotton mixed with silk thread," she says, adding that chanderi cotton is now a crowd favourite owing to its rich feel that goes for evening events too.

"Chanderi cotton has the chanderi weaves which has a lustre and luxurious feel to it. Most of the A-list fashion designers use chanderi fabric," she adds.

While comfort is key, style is too. Which is why mirror work, hand stitches and zardosi work are used to add the glam factor. "When it comes to sarees, net with crystals, similar in colour to Swarovski crystals, are trending," she says.

Arun Prasad, city-based history researcher, unravels interesting facts about Bengaluru in this weekly quiz series. So it's time for you to find out how familiar you are with the city, beyond its heritage buildings, IT parks and the pub culture.

THE QUIZ WILL BE PUBLISHED EVERY WEDNESDAY

Send answers to bengaluruexpress@gmail.com with the subject line 'Know Your City Quiz'. Correct answers and names of first three respondents with right answers will be featured in CE on Thursday.

THE RIGHT ANSWERS ARE

1) Nrupathunga Road 2) Bhagwan Mahaveer Jain Road 3) Central Tiffin Room (CTR)

FIRST THREE TO GET IT RIGHT

- 1) Anagha Krishnaswamy
- 2) Hemanth D Pai 3) R Sriramprasad

Construction brand organises launch of steel sheets

Jindal India Limited organised the launch event of coloured steel sheet to introduce their high-quality PPGL Color Coated product, Neucolor+. The event witnessed the presence of key representatives from Jindal India, including Sachin Mishra (AVP sales & marketing), Shivajee Pathak (plant head), Nandakishore Parmar (GM-sales & marketing), Bhaskar Cherekar (zonal head - south India), and Ashish Pai (manager - Karnataka region). Business partners Anuj Singh (Shri Lakshmi Steel Suppliers), Pankaj Mittal (Vikas Pipes), and Manjunath HB (MBS Roofings), along with other sub-dealers, were present at the launch event.

Panel discussion to be held

Prakriti Foundation, in association with Bangalore International Centre and Juggernaut, is holding a panel discussion titled 'Memoirs of a Comrade' as part of their 25th-year event series. The discussion will

revolve around recently-published book *My Life as a Comrade* featuring authors KK Shailaja, former health minister of Kerala. The book explores the author's role in managing the Covid pandemic and the influence of Kerala's communist politics on her life and the state. The panel discussion will take place on June 10 at 11.30am, at the Bangalore International Centre, Domlur.

Chasing Soppu is a guidebook to the wild edible plants of B'luu, and also features local recipes and home remedies

DESE GOWDA

PREPARING traditional curries like massoppu and bereki soppu saaru in Bengaluru is a daunting task these days. Unless one is lucky enough to own a small plot of land where these greens can be grown, one has to find a place that sells fresh greens, usually sourced from outside the city. As Bengaluru's urban landscape evolved over the last few years, the erstwhile green spaces within the city have steadily declined, leading to less space for these greens to naturally grow. As a result, foraging for greens like one used to in the earlier days has become an impossible task.

A new guidebook titled *Chas-*

ing Soppu, co-authored by Seema Mundoli and Harini Nagendra, both faculty members at the Azim Premji University, aims to provide relief to urban foragers, by identifying over 50 forageable species of greens in the city along with providing helpful recipes. "What is today known as urban foraging in academic circles, is a practice that women engage in almost daily. What to collect, the best places for it, the best parts of the plant, when to collect and so on is all knowledge passed down from grandmothers to daughters to granddaughters. It is not easy for anyone even with the guide to identify a plant because an edible plant has very similar looking poisonous versions. It is a real skill learnt over time,"

Green therapy

CHASING SOPPU

Mundoli explains.

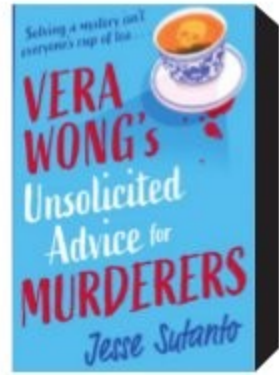

The brainchild of Nagendra, an ecologist and author, the book is the result of extensive research by her, and former APU faculty Dhruvi Somesh and Ranini Murali. "Between November 2019 and January 2020, research interviews were conducted with around 200 people in different parts of Bengaluru, almost half of whom – around 90 – were women. The 53 species included in this field guide are the ones mentioned by those who were interviewed," Mundoli adds.

Apart from serving as a guidebook about the various species of edible plants in the city, Mundoli hopes that the book increases awareness about the benefits of foraging, thereby reducing the artificial restrictions to green spaces in the city. "At the individual level, a better knowledge of edible

plants can contribute to a more varied, nutritious diet – beyond the greens found in regular vegetable shops nowadays," Mundoli says, adding "Foragers like the women we interviewed are facing many barriers. There are now restrictions on accessing public spaces from where they used to forage earlier – around lakes or in parks. Timings for entry, not being allowed to collect plants, the prioritisation of landscaped gardens with only ornamental species – all these have made foraging difficult. We want urban planners, resident welfare associations, councillors to relook at how they plan public spaces – not just from aesthetic or recreational point of view but also keeping in mind the needs of the women foragers."

(*Chasing Soppu* is available for free at azimpremjiiuniversity.edu.in)

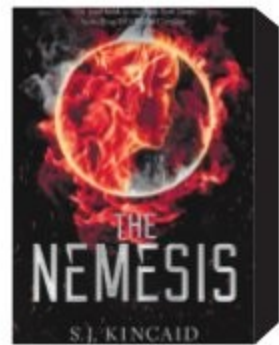

BOOK NOOK

Vera Wong's Unsolicited Advice for Murderers

Jesse Q Sutanto

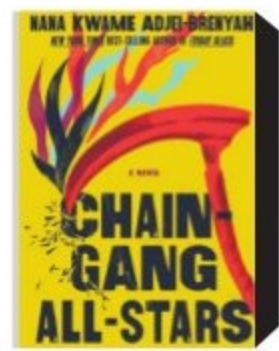

When Vera wakes up one morning to find a dead man in her tea shop, Vera decides it's down to her to catch the killer.

The Nemesis

S.J. Kincaid

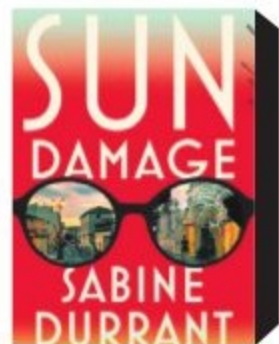

In the heart-pounding conclusion to the *Diabolic* series, the Empire teeters on the edge of destruction as rumors spread that Nemesis is still alive.

Chain-Gang All-Stars

Nana Kwame Adjei-Brenyah

Two top women gladiators fight for their freedom within a depraved private prison system not so far removed from America's own.

Sun Damage

WHAT WHEN WHY WHERE

Sip and Savour

Enjoy a great evening with friends, with a delectable selection of cocktails, and some quick bites.

When: June 1, 5pm. Where: Radisson Blu, Outer Ring Road. Details: 961755170

Tasty Treats

Savour a range from galouti kabab, vada pav and rolls to Thai curry and pasta and much more.

When: June 1, 12pm. Where: Cafe Delhi Heights, Brigade Road. Details: 9148614033

STAGE DRAMA

A 22-year-old girl remains unmarried...How scandalous! Follow as a suitable groom is found for Seethu. When: June 3, 730pm. Where: Kalagrama, Mallattahalli. Details: 9845087901

Compassionate Learning

At this session conducted by child psychologist Kavitha Angre, parents will get to learn about their child's regard to studies and how they can help them study.

When: June 3, 11.30am. Where: Prani, The pet sanctuary, Off Kankapura Road. Details: 9901795725

Laugh Out Loud

A standup comedy show that features the city's best comedians who will crack jokes about everything from coffee to crusty sandwiches.

When: June 1, 8pm. Where: Glens Bakehouse, Kalyanagar. Details: bookmyshow.com

Cinematic Explorations

Rahul Chandawarkar, a journalist will share his insights about the experience to capture the sights, sounds, and moods of Lahore city through a travel documentary.

When: June 3, 6pm. Where: Atta Galatta, Indiranagar. Details: 9632510126

Dance Delight

Learn the basic footsteps and turns of Bachata and unwind into a fun dance session with drinks on the house.

When: June 1, 7pm. Where: Smallworld, S.T. Bed, Koramangala. Details: bookmyshow.com

WASTE TO WONDER

QUICK FIX

SEMIYA CUSTARD PAYASAM

Contributed by Munseena Mohammed, Kasargod

INGREDIENTS:

- Thin semiya: 1 cup
- Milk: 4 cup
- Custard powder: 1 tsp
- Fruits: cut pieces of favourite fruits to garnish
- Ghee: 1 tbsp
- Milkmaid: as per taste

PREPARATION

- Put 1 tablespoon ghee in a heat pan. Add semiya into a pan and roast it and keep aside.
- Add three cups of milk and milkmaid into a saucepan and mix it well. Add the roasted semiya into boiling milk and stir well.
- In a small bowl, add 1 tablespoon of custard powder into 1/4 cup milk and add this mix to semiya and stir well continuously.
- When the preferable consistency is received, turn off the heat.
- After semiya cools down, add fruits in it and mix it well and serve it.

What's cooking in your kitchen?

FIT BIT

VAJRASANA NAMASTE

(THUNDERBOLT POSE PRAYER HANDS)

In Sanskrit, *vajra* means thunderbolt and *asana* means pose. In this pose, the act of joining hands in Namaste at the heart center helps practitioners to remain calm and anchored. This emphasises staying focused on the breath and body.

STEPS

- Start in Dandasana (Staff Pose) with a few breaths. Every inhalation raises the body upwards and stretches the spine completely. Inhale, bring the right leg bent and the knee, placing the right foot close to the buttocks, and exhale.
- Take a big breath in and raise the buttocks off the floor to place the foot below the right buttock and sit on the right foot, exhaling completely. Repeat the same with the left leg. Inhale and bring the left foot below the buttocks, with toes touching each other and heels apart. When you feel settled, inhale and bring the palms together at the heart center in Anjali Mudra. Stay here in Vajrasana Namaste for about six soft-slow-smooth deep breaths or, as per capacity, draw your abdomen softly in and upward.
- Ensure the body weight is not totally on the heels and ankles, which could make the pose uncomfortable. To release, bring the hands on the sides of the hips on the floor. Inhale and lift the body tilting it to the left side to release the right leg and bring it stretched out in front of you. Release the left leg tilting the body towards the right a bit, and exhale, stretching the leg out in front back in Dandasana.
- Relax by shaking or rotating the ankles in Staff Pose Hands Back, taking a little gap between the legs and then relax.

BENEFITS

- Helps better blood circulation in the body. This is the only yoga pose that you can practice right after lunch or dinner.
- Strengthens pelvic muscles by altering the blood flow in the pelvic region.
- Improves digestion and combats constipation, indigestion and acidity. Stimulates spinal nerves; corrects rounded back and drooping shoulders.
- Regulates the functioning of reproductive organs and thyroid gland. Beneficial for people suffering from sciatica.
- Helpful in curing menstrual disorders. Useful for attaining spiritual gains and peace of mind. Regular practice rejuvenates the whole body.
- Relieves piles and stomach disorders such as peptic ulcer, hyperacidity.

LIMITATIONS

People suffering with knee problems, intestinal ulcer, hernia, spinal cord condition, especially with the lower vertebrae, and pregnant women avoid this pose.

By N Elumalai, PhD scholar (Yoga Science) at Meenakshi Academy of Higher Education & Research, Chennai

REGIONAL

KANNAI NAMBATHEY (Tamil)

A young man falls in love with a girl, but her father doesn't approve. A friend's actions affect his peaceful life and some interconnected crimes happen.

Dupes of luxury beauty products are rising...aestheticians warn against the use of such products which can be harmful and have long-term side effects on the skin

MONIKA MONALISA

If you have been hooked to Instagram reels where many beauty bloggers are suggesting dupes to high-end luxury brands, then you are not alone. If you are getting your favourite lip colour or fragrance at an affordable price, what's the harm? Well...doctors say it might not be the best thing you would be putting on your skin.

Dr Jyothi Bandi, a cosmetologist, says dupes are all over in the field of medicine. "Cosmetics dupes are rampant because there is no proper regulation, system, or process. Clients and customers are easily influenced by somebody promoting something and purchasing them without checking the content. There are long-term or short-term side effects or complications associated with such products," says Bandi, adding that some of the products could even lead to skin cancer eventually.

One of the biggest problems that experts like Chaitanya K, an aesthetician find, is the lack of safety testing. "Not only do these dupes contain low-quality ingredients, but they might

THE BEAST IN THE BEAUTY SEGMENT

also have a different composition as well. This could lead to adverse reactions and we are also not sure if they contain any carcinogenic or harmful substances which might lead to major skin problems down the road," she adds.

The other aspect that Chaitanya points out is that most of the time these cosmetics or skincare lines do not provide the same level of performance and buyers lose faith in the in-

redient. "For example, a retinol that someone picks up from a new brand might not work, so they feel that the real retinol also does not work," she explains.

Shanu Suresh, an actor who has to use makeup for her work on most days, has seen the effect first-hand. "If something is premium, I want the quality to speak for itself. But sometimes in movies, the team would not have packed a premium brand

product so I have to go with what is available. And you can clearly see the difference. In front of the camera, the makeup has to set well but it can come across patchy," says Suresh.

Even though many experts have always been vocal about their concern about dupe cosmetics, why is it still popular with people? Geeta Rao, co-founder of a makeup academy, says it all comes down to accessibility. "We do use dupes. We have an academy where we teach students, and everyone can't afford to buy premium brands. It's also how you mix the products to get the same effect. It does work and looks the same. But of course, the application would be better if it's a premium brand," says Rao.

What ails kids this summer?

DR E NARAYANAN

This year, we have been witnessing extreme climatic changes. While for a week we deal with soaring temperatures, the next few days we experience rains. This has led to a lot of ailments in newborn, children and adults.

Viral flu-like illness

In these extremes of temperature, so many children and adults come with temperature of 103°F to 106°F with poor oral intake and extreme fatigue as fever progresses each day.

Antipyretic with tepid sponging with adequate hydration and supportive measures helps get rid of this prolonged fever.

Skin boils

Due to extreme humidity, infants, children and adults are prone to skin boils with numerous papular lesions over the neck, back, armpit, groin area which lead to constant irritation. These skin boils later change into folliculitis.

Bathing twice a day and applying aloe vera cream may be helpful. Antifungal plus anti-bacterial's may be needed.

Ring worm infections

Ring worm infections with itching are most commonly seen in groins and buttocks due to excessive perspiration. Avoiding excessive sweating and using antifungals play a major role in treatment.

Conjunctivitis

Due to irritant pollens in dry humid air, eyes are prone for irritation. With constant rubbing, it leads to conjunctivitis. Frequent hand washing and avoiding travel between 12 noon and 3pm can help prevent the disease.

Chickenpox

Numerous vesicles are noted in the face with fever, itching and severe myalgia in adults. Supportive treatment with adequate hydration with skin emollients may be helpful.

Obesity

Kids are reluctant to play outside and opt for gadgets instead. The screen time leads to increase in weight with more propensity to metabolic syndromes.

Behavioural problems

With many families having single child, and them spend-

ing hours on end in an air-conditioned room, most children have lost the ability to interact. They are occupied mentally leading to loss of emotional quotient and thus social attachment gets deprived. Hence, there are more chances of autism and behavioural problems developing in kids.

Thanks for all the Favours & Blessings received, Bless our Family always. RICHARD FLORENCE AND FAMILY.

Thank you for the favours & blessings received. continue to bless us with the favours we seek.
N.SRINIVAS & FAMILY

Dear Heart of Jesus, in the past, I have asked for many favours. This time, I ask you this very special favor (mention favor). Take it dear Heart of Jesus, and place it within your own broken heart where your Father sees it. Then in his merciful eyes it will become your favor. not mine.

Amen. Say this prayer for 3 days, promise publication and favor will be granted, no matter how impossible. Never known to fail.

Dear Lord thanks for all favours received seeking your graces. Blessings and mercies always
Joseph George

'OUR FRIENDSHIP STARTED BECAUSE OF MUTUAL ADMIRATION FOR EACH OTHER'S WORK'

... says couple Haripriya and Vasishta Simha, who share screen space for the first time in Ashok Teja's directorial, *Yadha Yadha Hi*, which sees its release this week

A SHARADHAA

Haripriya and Vasishta Simha, who are now a couple, claim to be good critics of each other. Their friendship started because of mutual admiration for each other's work. The duo share screen space for the first time in Ashok Teja's directorial, *Yadha Yadha Hi*. Haripriya reveals that she took up the film solely because of the script, while Vasishta states that he picked up the film because of his love for his wife, Haripriya.

While both actors compliment each other, Vasishta, who is an actor and a good singer, teaches singing to Haripriya, and in turn, he learns dance from her. In a conversation with *CE*, they share their experience working together in *Yadha Yadha Hi*, their future projects, and their way forward.

Despite giving importance to stories and her role, Haripriya reveals that she initially had reservations about taking up the project, "I was hesitant because some scenes demanded intimacy, and if Vasishta hadn't agreed, I might have declined the project. I thank him for taking on the project," she says.

Vasishta, on the other hand, believes that when an artiste of Haripriya's calibre is involved, she needs full support to pull it off with ease. "We took a conscious decision to do the film and capturing romance when in love was fun," he says.

Yadha Yadha Hi is a remake of the Telugu film *Yavaru*, which itself was a remake of the Bollywood film *Badla* which is inspired by a Spanish flick *Contratiempo*. Vasishta mentions that he doesn't believe in scene-by-scene remakes. He believes that an inspired film should have a connection and blend

A still from the film

with the local culture and nativity, especially in terms of characters and treatment. "Since I had previously worked with the director in a Telugu hit film called *Odelia Railway Station*, I had the opportunity to contribute to the film right from the script, says the actor, as he explains that the remakes are fading with the trend of

pan-India films. "The vitality and importance of a script will be known when it is rewritten and adapted well to the local language and culture."

Regarding their roles in *Yadha Yadha Hi*, Haripriya mentions that every character in the film feels real, and each actor has something significant to offer. Vasishta adds that the lead characters have negative aspects, creating a blend of human emotions and joyous characteristics.

The two discuss their working experience in *Yadha Yadha Hi*, and Haripriya states that they maintained a profes-

sional approach on set and behaved like colleagues, even though they were in a romantic relationship. Vasishta adds that their experience as actors, with over 40 movies under their belt, speaks for itself.

Haripriya who shares screen space with Diganth, says she never imagined him playing a cop, and he pulled off the role very well. Vasishta notes that Diganth even though donning a Khaki, brings out his mischievous side and humour, blending it well with the character.

When asked about the possibility of working together again in future projects, both actors express their openness to collaborate if the script demands it. "I am particular to work in subjects that give equal prominence to both of us as actors and offer something fresh and unique," says Haripriya, who is currently on a break, and is searching for an offer she cannot reject. "We have received many scripts after our engagement and are considering them," adds Vasishta.

When asked about their favourite roles, Haripriya mentions that she fell in love with Vasishta's role in *Godhi Banna Sadharana Mykattu* and that has been one of his best performances to date. Vasishta says most of Haripriya's films are character-oriented and she delivers them with ease, and he admires her on screen. "I am not a fan of women being typecasted, and that's a personal commitment I've made. I particularly enjoyed her performance in *Ricky*, where she portrayed dual shades."

Coming back to *Yadha Yadha Hi*, the subject has been tested and proven due to its potential. "The film aims to highlight the thrilling experience and create emotionally blended sequences that make it relatable. It is engaging, beautiful, and technically rich. Our goal is to provide engagement and entertainment through the movie. We watched the film a few days ago, and it has turned out well," sums up Vasishta.

Aadhyananan Suman set to make his South Indian debut with Aryan's first directorial

Billed as a crime thriller, the film features Ragini Dwivedi as the female lead and Abhimanyu Kashinath as part of the principal cast

CE FEATURES

Aadhyananan Suman is set to make his debut in South Indian cinema with Aryan's directorial debut. The Bollywood actor, known for films like *Raaz - The Mystery Continues* and the web series *Aashram*, as well as his musical videos, will now be seen in a thrilling multilingual crime film. Joining Aadhyananan Suman in this Pan India project will be Ragini Dwivedi, while Abhimanyu Kashinath plays the lead role.

"The makers recently launched the multilingual film in Hyderabad, and another auspicious event will be held on June 10 in Bengaluru," says Aryan, the film's director. The project will be produced by Tony Raj from Horizon Studio, who has distributed South Indian films in Karnataka like *Bimbisara*, Kamal Hassan *Vikram*, and Ponniyin Selvan 1, among others. This will be Horizon Studios' second project, following the yet-to-be-released film *3 BHK*, starring Vijay Raghavendra.

The shooting for the film is scheduled to begin at the end of June, and the cast will also

Aryan, Suman, Aadhyananan and Ragini Dwivedi.

include Mahantesh Hiremath, Vijay Chendoor, and Sanjay Kumar. Additionally, Saikumar will be playing a pivotal role in the yet-to-be-titled movie.

Aryan has brought on board Shridhar Kashyap as the music composer, and Chandrashekar K S as the cinematographer. The film's dialogues and lyrics will be written by Harish Shringa.

Mandy Moore to star in Thread: An Insidious Tale

CE FEATURES

Mandy Moore and Kumail Nanjiani will star in the upcoming film *Thread: An Insidious Tale*, which will be set within the Insidious universe. The project is attached to Screen Gems, Blumhouse and James Wan's Atomic Monster.

Thread: An Insidious Tale will be the sixth in-

stallment from the Insidious franchise, it will not be a direct continuation to the main set of films. Instead, it will revolve around a couple who will travel back in time so that they can prevent their daughter's death. Mandy and Kumail will star as the couple.

Jeremy Slater will direct the film, and also pens the script. It will mark his directorial debut in feature films. He has previously made series *Moon Knight* and co-created Netflix's *The Umbrella Academy*.

Mandy Moore

KARTIK BHARADWAJ

Journalism is seldom shown accurately in Hindi film media. Print journalism, on the other hand, is seldom shown. It's mostly TV anchors screaming on debates, mimicking a particular real-life presenter and being parodied elements of a satire or reporters seducing sources for a tip. In such a world, director Hansal Mehta's six-part Netflix series *Scoop* feels fresh. It weaves the story of Jagruti Pathak, a print journalist and a senior crime reporter, who is arrested for abetting the killing of rival scribe Jaideb Sen, who was shot, in broad

daylight, by gangster Chhota Rajan's men. The story is inspired by former crime journalist Jigna Vora's memoir *Behind Bars in Byculla: My Days in Prison*. It stars Karishma Tanna, Harman Baweja and Mohammed Zeeshan Ayyub.

"I think the logline itself was the arresting bit. The reporter becomes the reported," says Mehta, who has carved a niche for himself on OTT with real-life-inspired, informative, pacy shows like *Scam 1992: The Harshad Mehta Story*. Although the director is known to create believable, fleshed-out worlds in which his characters operate, what gets him going is telling a human story.

"Jigna's book became the catalyst to tell a

larger story, which is actually a personal story," he says. "Who exactly are journalists? We see them as mere bylines in newspapers or faces on TV. They are just people who report on other people. Do we really bother about what they do at home?"

The director also believes that a lack of empathy leads to creation of stereotypes in cinema. "Whether it's politicians, cops, or journalists, we, as filmmakers, usually fail to understand them as human beings. We show them as stereotypes and don't go beyond that," he says.

Reiterating that any film or series will have the frivolousness of fiction unless it has a personal element in it, Mehta adds, "The portions of Jagruti's life which excite me are the ones in which she wakes up in the morning, in a typical, loud Gujarati household and has to talk to sources with the noise of the grinder in the background."

"That's the sort of detail he gets," interjects Karishma Tanna, who plays the protagonist Jagruti in the series. The actor, who has been a TV regular, is playing the lead and a crime reporter for the first time on an OTT show. "I think it is really stressful to be a crime journalist. I mean imagine getting a

REPORTER, REPORTED?

Karishma Tanna

work call every time you go on a vacation," she quips. Explaining the process of shaping the character, Tanna shares, "I shadowed a female crime reporter. I was concerned with the body language, how I am supposed

Mohammed Zeeshan Ayyub

Harman Baweja

to talk, what words or jargons to use."

The show marks the comeback of Harman Baweja, who plays DCP Shroff in the series. The actor plays a chubby cop who is an important source for Tanna's Jagruti. "I hope I don't look like Hrithik Roshan anymore," he jokes. Baweja's appearance and dancing skills were compared to Hrithik at the time of the former's debut *Love Story 2050* (2008). He took a back seat from acting after subsequent films like *Victory* (2008) and *What's Your Raash-e-e?* (2009) failed to impress both trade analysts and critics. "It's just that I can't say no to Mukesh Chhabra (casting director). Whenever he wants something from me, he starts speaking in Punjabi, he knows it is my weak spot," he says.

On the other hand, Mehta and Baweja go long back. "I know him since he was 18," says the director. The actor's first production *Yeh Kya Ho Raha Hai?* (2002) was directed by Mehta. "I couldn't hear a no from him so I asked Mukesh to approach him first."

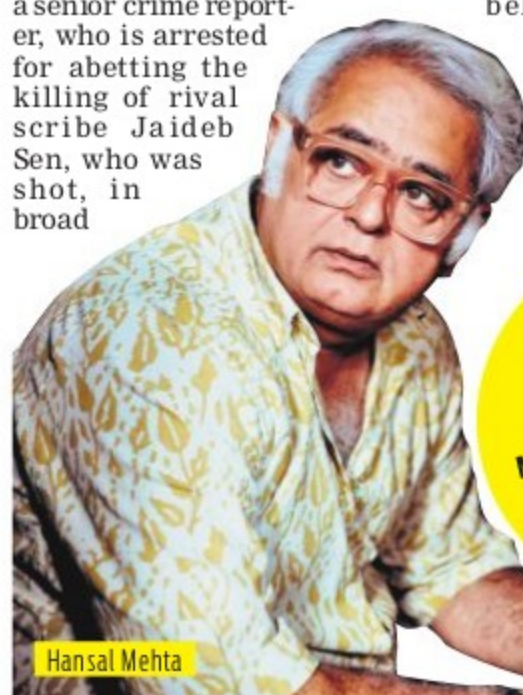

The director also states that he was a bit apprehensive about reaching out to

Baweja for the role. "I have seen his journey up close. His launch as an actor and then things not working out. I didn't want to ask him to act again and trigger any negative emotions within him. But he was sporty enough to take up the role."

While the series is filled with crafty newsmen eager to clinch the scoop, Mohammed Zeeshan Ayyub's Imraan, who is Jagruti's boss and the editor of the newspaper she works at, is the moral compass of the show. "Through this character, I think we are talking about the importance of ethics in journalism," says Ayyub. "Hansal's viewpoints on journalism and the state of the media are communicated through Imraan's character."

And what are the director's views on the condition of the media? "It's very chaotic. Especially the TV news media with 15 windows open, red colours flashing and everybody screaming. I can't sleep well at night if I watch TV news. It is meant to mess with your head," says Mehta.

So, does he prefer to read news online? "Digital news, like on WhatsApp, comes from too many unverified sources. I am a bit old-fashioned. My morning is not complete without a newspaper."
